Education

Codeup - May 2017

Codeup is an immersive, full-stack career accelerator that provides students with 536+ hours of expert instruction in software development.

University of Texas at San Antonio - 2015-2016

Completed 30 hours towards Bachelor's Degree in Accounting

Web Development Projects

Weather Application

JavaScript | jQuery | CSS | HTML | Google Maps API | Open Weather Maps API

An interactive weather map that integrates Open Weather Maps with Google Maps. The application allows users to see a location's 3-day weather forecast by dragging the map's marker or typing in a location.

Simple Simon Game

JavaScript | jQuery | CSS | HTML

A rendition of the original memory game, "Simon Says." This game was primarily created using JavaScript and jQuery while featuring timed animations, a round counter, and a whimsical theme.

JavaScript Calculator

HTML5 | CSS3 | JavaScript | jQuery

A traditional four-operator calculator that utilizes JavaScript and jQuery with a sleek, pink theme.

Experience

Repair Technician, uBreakiFix, San Antonio, TX - 2015-2016
