Excellent communicator with multi-cultural groups; Spanish/English fluency – Read, write and speak (Certified as Advanced Level by the American Council on the Teaching of Foreign Languages)

Web Development Projects

Level Up Learning <https://leveluplearning.site>

Java | Spring | MySQL | Bootstrap | JavaScript | jQuery | CSS3 | HTML

Level Up Learning is a mobile-responsive, Java-based platform that connects parents and students with local teachers to advance their education in various subjects. Through 1:1 connections with teachers, parents and students are able to advance their skills by learning new subjects or digging deeper into concepts with which they are already familiar. As Level Up subject matter experts in specific fields, the platform allows teachers to share their expertise while earning additional income.

Prestige - Adlister

Java | MySQL | Tomcat | Bootstrap | CSS

A full-stack web application that is designed to allow users to buy and sell items locally, much like Craigslist. The data is stored using MySQL and handled by a model, view and controller that is entirely built on Java. This allows users to sign-up/login to an account and manage their ads. The front-end utilizes Bootstrap 4 and CSS to allow for a quick and organized standup of the application.

Simple Simon Game

JavaScript | jQuery | CSS | HTML

A rendition of the original memory game, "Simon Says." This game was primarily created using JavaScript and jQuery while featuring timed animations, a round counter, and a whimsical theme.

Experience

Bilingual Care Coordinator

TAVHealth, San Antonio, TX

2015 - 2017

- Identified conflicting social determinants and provided creative solutions for clients' personal/financial emergencies by assessing needs and eligibility for services through different programs and agencies
- Provided ongoing lead generation for new sales and managed customer requests via Salesforce.com
- Followed established procedures, timeframes, and priority standards when verifying, creating and maintaining CRG data to complete tasks in order of importance and time sensitivity
- Conducted ongoing audits to ensure that CRG data entered in TAVConnect was accurate and up-to-date and provided regular status reports to senior-level management
- Completed Jira support service requests within 24 hours
- Maintained knowledge of healthcare industry and trends

Program Administrator

Goodwill Industries, San Antonio, TX

2010 - 2015

- Spearheaded a new software business development project (Good Choices Portal) which resulted in partnerships with more than 30 community partners, to include several in the non-profit, healthcare industry, and the correctional facilities throughout the greater San Antonio region
- Implemented changes on the Good Choices Portal based on member surveys and audit findings
- Worked with all Operations, Management and Business Development to identify and analyze new business opportunities and develop strategies at the federal, state, county, and city levels
- Trained up to 65 employees and participants on use of Good Choices Portal resources
- Tracked and reported on all Good Choices Portal sales and utilization activities

Peer Health Educator

(Community Service) Gatesville, TX

2007 - 2010

- Provided health education classes and resources to the community

Human Resources Assistant

Cargill, Dodge City, KS

2005 - 2007

- Recruited hired, and retained employees by implementing bilingual training and career development program
- Recognized as top employee for translating the Employee Handbook from English to Spanish
- Created re-verification procedure to clear applicants for new hire orientation attendance and to confirm compliance with Employment Eligibility Verification with the Federal Government, conducted background checks, and audited I-9's
- Audited worker's compensation cases to confirm compliance with OSHA standards and identified changes necessary to maintain an accident-free environment
- Maintained accurate records of data for personnel records via Kronos, Basic Pilot, TruDiligence and Vanguard

Education

Codeup

July 2017
