Software Developer

Security Clearance: Active TS / SCI

Collaborative full stack software developer with 4 years of team-based management experience in the information technology field pursuing a career on a development team. Detail-oriented veteran who is passionate about learning and solving problems for users.

PROJECTS

Weather App

Built a custom weather map that integrates the Google Maps API and the OpenWeatherMap API. Using AJAX requests, users are able to get real time weather forecasts for anywhere on earth. Made with JavaScript, jQuery, AJAX, CSS and HTML.

Simple Simon

Web browser version of the classic Simon game. Functionality created using JavaScript and jQuery. Styled with HTML & CSS.

Prestige

Functional Craigslist clone ad lister site developed using Java, MySQL, JavaScript, HTML and CSS to create an MVC application.

Full Stack Capstone Web Application (July)

Will coordinate with a small team to construct a full-stack web application with full functionality and a number of key features.

EXPERIENCE

US Air Force, Albuquerque, NM - *Assistant Flight Commander*

June 16 - Jan 17

Provided guidance, direction, and leadership to the 10 member team. Assisted in leading all flight duties, including Operations, Training, Quality Assurance, Systems Security, and personal/professional matters.

US Air Force, Albuquerque, NM - *Chief of Group Intel Operations*

Aug 15 - Jun 16

Led a 10-member team, created and briefed 546 world-wide classified intelligence and critical threat presentations using internal and external sources to 2,100+ personnel.

US Air Force, Albuquerque, NM - *Squadron Executive Officer*

Aug 14 - Aug 15

Directed a six member executive support staff managing 157 administrative tasks, meetings, reports, projects, and all correspondence on behalf of the commander for 140 airmen.

US Air Force, Albuquerque, NM - *Community College of the Air Force (CCAF) Instructor/Chief of Systems*

Aug 13 - Aug 14

Formally trained and advised 6,000 aircrew students on 23 enemy weapon systems and tactics through eight classes as a certified Intel instructor. Managed 116 systems worth \$198,000 across three military networks and oversaw operations training and protocol with no violations for three years.
