OTHER

Secret Security Clearance (active)

ABOUT ME

One of the most satisfying aspects of programming is creating something out of nothing that is useful to people, especially if it improves their lives in some way. I love the challenge of problem-solving, there is a sense of fulfillment after finding a creative solution. The ever-evolving nature of web development keeps me engaged with new technologies, and there is no limit to what I can learn to improve my craft.

DEVELOPMENT PROJECTS

Simple K

Mar 2019

A tech solution helping parents dispel the complications of enrolling their pre-k age children into high quality pre-k services based on education, health/wellness, and financial needs.
