 [/kuwanbarnes](https://github.com/kuwanbarnes)

Ambitious and creative army veteran turned software developer who tackles challenges head-on. My background in military tactical and strategic operations has honed my attention to detail and adaptability. The desire to leverage my creative skills and join a fast-growing industry inspired the transition to web development. Looking forward to joining an employer that has an inclusive culture focused on growing and developing talent.

Technical Skills

HTML - CSS - Bootstrap - JavaScript - jQuery - Java SE - Java EE (Servlets, JSP) - Spring - MySQL - Thymeleaf - Object-Oriented Programming - Test-Driven Development - Version Control with Git - Paired Programming

Development Projects

[Movie-app](#)

Project focused on Paired Programming that involved NPM, JS, HTML, Bootstrap, CSS to generate a webpage that allows a user to add, edit, and remove movies from the movie list

[Design-project](#)

In this project, we built a responsive site for a fictional company Codeup design using Bootstrap's grid system

[Coffee-project](#)

Project focused on Paired Programming that involved HTML, CSS, and JS to generate a webpage that allows a user to add, edit and remove coffees to the coffee list.

[Order-pizza](#)

Built a pizza ordering project that focused on reading Bootstrap's documentation and using Bootstrap's pre-built components, as opposed to writing my own custom CSS.

[Travel by Trippi](#)

Full-stack Spring-Boot web application giving users full CRUD functionality to create travel groups, and collaborate on trip planning. Google maps/places APIs were implemented to find venues in selected locations. Technologies used: HTML, CSS, Javascript, Java, MySQL

Military Experience

United States Army - Fort Gordon, GA

Signals Intelligence (SIGINT) Analyst / Oct 2009 - Oct 2016

- Provided signals intelligence analysis support to the intelligence staffs to support operational functions
- Leveraged knowledge of tactical and strategic SIGINT operations to collect and analyze data for the use of disseminating intelligence reports
- Diligently worked for USAREUR and Special Operations Command Africa (SOCAF) to identify targets of interest and new leads in weapons trafficking, scouring through upwards of 120,000 entities

Professional Experience

U-Haul - San Antonio, TX

Assistant Manager/Customer Service Representative / Feb 2017 - Oct 2020

- Assisted the General Manager with daily operations to ensure a smooth-running center
- Achieved excellent service by developing relationships with customers and assessing their needs
- Managed the assignment of care team members to customers which led to great first impressions and high quality of care
- Installed hitches and rewired customers' vehicles to assist them with their move.

Education

Codeup

Certification of Completion

May 2021

A fully-immersive, project-based, and intensive 22-week Full-Stack Java Career Accelerator that provides students with 670 hours of expert instruction in software development
