

Hannah Paterka

Software Developer

Software developer and former business manager with 5+ years experience in the operations and logistics of running a small business. A life-long interest in software development and problem solving ignited my career transition into tech. Detailed oriented and focused, I strive to be a top-notch developer with priority on visually appealing design and light-weight, practical functionality.

Development Projects

AppliTraq

JavaScript, JQuery, REST API, JPA, Java, Spring, Thymeleaf, SQL/MySQL

AppliTraq is a one stop shop for job seekers to keep track of their job applications on a visual workflow made to mirror a kanban board style. This web application features full CRUD functionality, and the ability to create notes and reminders for oneself. This pair programming project was developed in an agile team environment.

AdLister

HTML/CSS, BootStrap, Javascript, Java, SQL/MySQL, OOP, Servlets and JSP

A Craigslist-like ad lister full stack website. Each ad is associated with the user who created it, allowing for read, edit, and delete capabilities as well as categorizing items. This project was a collaborative effort on a team of 4.

Weather App

HTML/CSS, BootStrap, Javascript, jQuery, AJAX, OpenWeatherMap & Mapbox API

A solo project in creating an interactive map to show weather conditions. Drag and drop a marker for desired location or use the search bar to get results -including warnings of bad weather! Responsive layout included.

Professional Experience

Coalter Group - Lander, WY

Sr. Bartender, Head Cook / Mar 2017 - Jan 2020

- Promoted to Head/Grill Cook, kitchen shift leader after a year
- Bartender, serving night shifts with drink sales of \$8,000+
- Trained 3-4 new hires per month; taught cooks kitchen management and safety protocols and bartenders how to operate opening and closing

Glorieta 2.0 - Santa Fe, NM

HighFive zipline facilitation/maintenance / Feb 2016 - Nov 2016

- Head guide, overseeing daily staff operations. I trained 40+ zipline guides and oversaw 5-6 person teams daily. Maintained, inspected, and repaired every part of the high-elements in use.

Blindman LLC - San Antonio, TX

Office Manager / Jun 2009 - Apr 2015

- Converted the business database to an online and paperless system, allowing users to view or modify data based on their credentials, and eliminating hours of repetitive daily data-entry tasks, emails and phone calls.
- Working in a small business taught me to be adaptable and efficient in a fast paced business. I am a highly-motivated problem solver, always looking to improve systems and ease headaches for staff and business partners.
