

Joseph Congdon

Software Developer

Energetic and driven Software Developer with experience in leading teams, delivering exceptional client service, and managing stakeholder relationships. As an Audio Visual Tech, it was necessary to develop technical skills in modern stage equipment as well as skills in troubleshooting and teamwork. Past experience coupled with the desire to have a sustainable career inspired the transition to web development. Eager to leverage technical and soft skills to join an environment that thrives on teamwork and collaboration for the creation of dynamic new software solutions.

Development Projects

[Intellifridge](#)

A food tracking and management system application. Designed for phones using Java, JavaScript, HTML, CSS and MySQL, Intellifridge allows a user to create a fridge and store foods in there. The food expiration is monitored and the user is then alerted by text if their food is about to expire. Intellifridge is a group effort capstone project.

[Ad Lister Application](#)

A Java application that allows users to register a username and password, log in and create ads. The Ad Lister application was created through group effort and utilizes Java, JDBC, MySQL, CSS, Bootstrap and Maven.

[Movie Rating Application](#)

This was a paired programming effort that gives the user the ability to create a movie list with their own rating. They can also remove pre existing movies from the list. Movie Rating App utilizes JavaScript, JQuery, HTML, CSS and Bootstrap.

[Contacts Manager Application](#)

Contacts Manager allows users to create, read, update and delete a contacts list. This was a paired programming effort that utilizes Vanilla Java.

Professional Experience

Freelance Audio Visual Technician - New Braunfels, Texas

Stage manager/ Feb 2014 - Jul 2020

- Acted as Team lead for AV groups and managed the set up for and operations of large variation soundboards, lighting rigs, cameras, and computers
- Diagnosed and troubleshot problems in signal flow between backstage equipment, presenters, and the sound equipment
- Managed stakeholder relations by being the liaison between clients and presenters, setting expectations, and keeping everyone informed on the progress of production
- Successfully managed show operations as Stage Director by communicating with presenters, technicians, and camera operators throughout rehearsal and show
