

AUSTIN GARZA

Software Developer
San Antonio, Texas

ABOUT ME

I am a Marine Corps intelligence analyst turned full stack developer. Programming is the perfect mix of analytical thinking and problem solving, and decision making. Through code we are able to build meaningful and purposeful applications that have the ability to impact countless peoples lives with our work.

SECURITY CLEARANCE

Adjudicated TS/SCI in 2013
Single Scope Background Investigation (SSBI)

PROJECTS

Our Pueblo: Application that facilitates the crowd-sourced translation of the COSA website by volunteers, requiring admin review. The application is built using HTML5, CSS3, Bootstrap, JavaScript, jQuery, Java, MySQL, and Spring Boot.

Coffee Project: This web page shows current inventory and has two search features that update in the moment as a user types or makes a coffee selection.

Weather Project: Working with the Open Weather API, this project makes requests and formats data to show a three day forecast for any location.

Adlister Project: Full stack applications that allows users to register for a profile, edit your profile, create ads and search for adds.
