

# SAMUEL RODRIGUEZ

## Software Developer

---

### PERSONAL PROFILE

---

I am a goal-oriented software developer with an eye for detail, with a love for designing and improving everything that I am involved in, with an expertise in public relations as well as problem solving. My goal is to become a part of a team, where I will have the opportunity to learn and grow from my superiors.

### CONTACT DETAILS

### PROJECTS

---

All projects can be viewed at: <https://github.com/samroodriguez>

#### E-libraries - Java

E-libraries is an online store that allows users to buy and sell used books, view user profiles, update the condition of the books they are listing as well as rating other users. Created using Thymeleaf, Spring, Java, JS and jQuery.

#### AdLister - Java

The Adlister is a Craigslist clone. The project is a full stack web application that allows users to view ads that other users have listed. It also allows users to post ads. It was created using Java, JavaScript and Bootstrap.

#### Simple Simon Game - JS

Simple Simon is a simple Simon Says game made with nothing but HTML, CSS, JavaScript and Bootstrap. There is a sequence displayed and if you can match the sequence of colors you continue, if not you lose.

### ABILITIES

---

Javascript, jQuery, NPM, Java, Spring, SQL, MySQL, Git, Github, Google Chrome Extensions

### EMPLOYMENT HISTORY

---

#### Project Manager

TooChill, LLC | November 2016 - December 2017

I worked closely with upper management to make sure that the scope, direction, and budget of each project is on schedule and in line with the proposals.

#### Server

Red Lobster | September 2016 - January 2017

I was a steward of the in-house customer experience, I identified problems and created on-the-spot solutions. The job demanded quick thinking and the ability to articulate problems verbally when necessary.

### ACADEMIC PROFILE

---

#### CodeUp

2018-2019

Fully-immersive, project-based, and intensive 18 week full stack Java career accelerator that provides students with 600+ hours of expert instruction in software development.

HTML/CSS - Bootstrap Framework - JavaScript - jQuery - Java - Java EE - Spring Framework - Version Control with Git and basic SQL training specifically with MySQL

#### South Texas College

2016-2017

Majored in Fire Science, did not complete program due to career change.

### OTHER SKILLS

---

I am bilingual and can speak natively in English, and Spanish. I am also an avid reader, writer, and I love to learn new things and meet new people.
