SOFTWARE DEVELOPER

DEVELOPMENT PROJECTS

Vital Records - San Antonio Project, 03/2018
Vital Records SA is an online ordering system that allows for residents to quickly receive birth and death certificates. This allows for the city to gain revenue and significantly reduce turn-around time for both residents and city administrators.

The Adlister Project, 02/2019
A Craigslist - type Java application that uses JSP files, servlets, and DAOs (data access objects) to allow users to create, read, update, and delete ads from a MySQL database.

The Movie Project, 12/2018
Application designed to rate, add, edit, and delete movies. Utilizing The Movie Database API, this project receives data, and renders it to display movie titles, overviews, poster images, and trailers.

The Weather Map Project, 11/2018
Utilizing Open Weather API, this project receives data and renders it to display the 3 day forecast for any location entered or by clicking on the map.

Justin's Locksmithing Project, 10/2018
Used various technologies, including HTML, CSS and JavaScript to make repairs and optimize the company website. Transitioned the old site into a mobile friendly version.

EDUCATION

Codeup, 11/2018 to 04/2019
Codeup is a fully-immersive, project-based, and intensive 18 week full stack Java career accelerator that provides students with 600+ hours of expert instruction in software development.

My curious nature led me to software development where I thrive naturally. I enjoy combining logic with complex design and managing the various milestones that accompany team projects. I am in awe of the impact technology has on the world and I take great pleasure in being a part of the creation.

TECHNICAL SKILLS

HTML - CSS - Bootstrap - JavaScript - JQuery - Java - Spring Boot - MySQL - Git

MILITARY EXPERIENCE

US Army, 06/2002 to 06/2006
Provided specialist work with battlefield signal support systems and terminal devices for the Army during and after Operation Iraqi Freedom.
Secret Security Clearance (Lapsed)

PROFESSIONAL EXPERIENCE

Elegant Software Solutions - Technologist Intern 07/2018 - 10/2018
An internship program that specialized in highly focused, immersive training centered on language fluency, object-oriented programming, and project-based learning.

3:8 Juice And Eatery - Cafe Manager 04/2018 - 07/2018
I took the knowledge I received in culinary school and expanded my talent for creating great cuisine into a position where I managed a handful of employees while running the day-to-day operations of a small cafe.

Lifetime Fitness Life Cafe - Assistant Manager 04/2015 - 03/2018
I assisted in managing and overseeing the café with the Café Manager. I managed keeping costs at a minimum, training and developing staff, maintaining cleanliness, and executing recipes to standard.

Government Contracting - Field Service Engineer 11/2006 - 06/2014
I traveled to different bases in Afghanistan, Iraq and Kuwait providing onsite installations and repairs of counter-electronic warfare systems for various government clients and branches of the military.
