

JOHN DE LEON

Software Developer

Finding creative solutions for software development problems. I use the same critical thinking skills learned from years of being an artists to implement logical code. As a developer I strive to expand my knowledge and explore the future of coding.

SKILLS

HTML	Java SE
CSS	MySQL
JavaScript	Spring Boot
Framework	Thymeleaf
BootStrap	jQuery
VCS with Git	Object Oriented
Paired Programing	Programming
Java EE Servlets, JSP	

EXPOSURE TO

EmberJS
Skeleton
Materialize

MY EDUCATION HISTORY

CODEUP

Certificate of Completion July 2019

A fully-immersive, project-based, and intensive 18 week full stack Java career accelerator that provides students with 600+hours of expert instruction in software development.

ART INSTITUTE OF PITTSBURG

Major: Graphic Design May 2009

At the Art Institute Online Division, I learned how to apply my artistic skills to HTML and Graphic design.

DEVELOPMENT PROJECTS

Maintenance Ticketing System July 2019

This is my capstone project putting together all that I learned through Codeup. This project is to create a modern ticketing system that can be adapted to fit the needs of many maintenance team. My team and I worked together to plan and execute the project sharing responsibility of all the backend and front end tasks.

Codeup Blog Project June 2019

This project was to create a simple blog page with full MVC functionality using Spring with Thymeleaf. I used Spring security for authentication and password encryption.

Employee Lister June 2019

For this project I worked with a team to create a system to manage and list employees of a company.

WORK HISTORY

SPECTRUM June 2014 - December 2018

Provisioning Activation and Confirmation

I was responsible for provisioning phone numbers in the phones soft-switch board. Facilitated porting of business class phone numbers between companies. Worked with other providers to correct porting errors.

TIME WARNER CABLE Feburary 2010 - June 2014

Technical Support Representative

I served as the forward facing point of contact for TWC customers, resolving technical issues for both hardware and software for TWC. Advanced through the tiers of Tech-support.
