PROFESSIONAL EXPERIENCE

PUMPCO ENERGY SERVICES

Service Supervisor | 2012 - 2019

Maintained communication with upper management and clients to ensure that the scope, direction, and budget of each project was on schedule and in line with the time schedule. Oversaw 10-20 man crew ensuring all safety practices were being applied. Maintained working relationships with all 3rd parties on location.

WELLS FARGO

Business & Personal Banker 2009 - 2012

First line of service with commercial and personal customers. Top 10 in sales 6 straight quarters in the San Antonio and surrounding areas. Led area sales meetings to ensure sales goals and sales practices are being implemented. Increased branch revenue by ensuring customer's needs were met financially.

DEVELOPMENT PROJECTS

Codeon Apr 2020
CodeOn is a full stack application built with Spring Boot. It provides aspiring developers with a central location to prepare for employment interviews, connect with mentors, and share job opportunities. CodeOn is driven by community feedback, designed with the MVC Pattern, and powered by technology such as Spring Security and Filestack API

Adlister Mar 2020
Adlister is a three-person full-stack application utilizing MVC design pattern to allow users to create a profile, create, update, and delete post. Utilizing kanban allowed us to track workflow and maximize efficiency in building a functional website.

Weather Map Jan 2020
Weather Map is a Javascript driven application that forecast the weather anywhere in the world in a 3 day format(current day and the two days preceding). With requests from Dark Sky Api and Mapbox Api, we are able to get both databases to asynchronously retrieve information to display realtime information to users.

EDUCATION

Codeup Apr 2020

Certificate of Completion

Codeup is a fully-immersive, project-based, and intensive 20-week full-stack Java career accelerator that provides students with 670+ hours of expert instruction in software development.

Superior Energy Services Feb 2018

Certificate of Completion-Wellbore Stimulation I

Completed a 40-hour course. Training for analyzing bottom hole pressure at constant flow rate, drawdown well tests and specific calculations for all downhole situations.
