---

Resourceful tech enthusiast whose idea hungry mind craves the challenge of the next project. With a background ranging from information management to software development, my multi-displinary skillset has made me a creative problem solver who is community-minded and efficient. I hope to work for your organization to further my knowledge and bring about our success.

Development Projects

Personal Portfolio
Utilizing tools provided in Gatsby.js, I developed a dynamic website that provides an about me, list of my projects, and ways potential employers can contact me. This web page was deployed using netlify and utilizes bootstrap to handle styling. The site can be visited at larrycastillo.com

Gacho Style Magazine
A digital art portfolio and magazine aesthetically designed by San Antonio artist Zerktronic. Using paired programming we(two person team) utilized the Spring Framework, Amazon S3, and Bootstrap to create a responsive mobile experience.

Adventure Buddy
A social media platform that allows users to create events, view stats on various hiking trails, and make profiles to save favorite trails and buddies. This dynamic full-stack application was deployed to a digital ocean server and made possible with Spring Boot.

War
Designed and coded in under a week as a challenge for a hackathon, this web application is a recreation of the classic card game war. This frontend project was built using the Bootstrap framework, vanilla javascript, and some custom CSS for animations. This application can be visted here.

Professional Experience

Codeup – San Antonio, TX(Remote)
Student Fellow / Mar 2021 - Current
- Provided assistance to instructors teaching the Web Development Bootcamp course(HTML, CSS, Javascript, Java, and frameworks for the corresponding languages).
- Actively engaged students to ensure they were tracking within the course along with provided after-hours tutoring and code troubleshooting.
- Participated in the success of the Marco cohort, a pure remote cohort that faced many hardships during the midst of the pandemic.

Capital Group – San Antonio, TX
Retirement Plan Services / Mar 2019 - Nov 2019
- Using my aptitude for time management and organization, I compiled and sorted through incoming client service requests to ensure the information on Capital Groups database was secure.
- Authenticated each request with my keen eye for detail.
- Fulfilled client requests by servicing their accounts by transferring funds between IRA's, updating information, and creating new IRA's within the company.

Ciox Health – San Antonio, TX
Release of Information / Feb 2016 - Feb 2019
- In a group setting, I assisted reviving three at-risk sites using my efficient approach to organization and time management.
- Responded to medical requests from hospital staff, law firms, and government agencies. This included performing HIPAA compliance audits to ensure information was properly stored on the database.
- Managed, operated, and maintained the patient-facing desk at each site.
