[bmarchambault](#)

I've always enjoyed discovering the functionality of things and assessing my ability to grasp and execute the concepts. As a software developer, I'm able to apply that curiosity and resourcefulness in combination with my innate desire to create. I have a natural ability to lead by example and encourage both personal and professional development which fosters strong group dynamics with positive and successful outcomes. This, paired with critical leaning thinking and proficient computer-technology knowledge, puts me in a position to seamlessly integrate into any work environment.

TECHNICAL SKILLS

HTML	Paired Programming
CSS	jQuery
JavaScript	MySQL
Thymeleaf	Spring Boot Framework
Bootstrap	Object-Oriented Programming
VCS with Git	Java EE (Servlets, JSP)
QuickBooks	Microsoft Office Suite

Exposure:	Test-Driven Development
Adobe	Sage
FrontPage	

PROFESSIONAL EXPERIENCE

Bookkeeper Aug 2019 – Mar 2020

Contractor

Responsibilities included processing invoices, accounts receivable and reconciliation as well as generating various financial reports and data entry. Maintained frequent and consistent interpersonal client interaction including conflict resolution throughout the year. Problem solved to ensure client needs are met and reflected accurately and in accordance with accounting guidelines.

Tropical Smoothie Cafe Aug 2019 – Mar 2020

Assistant Manager

Supervised employees to ensure company/city standards were met. Trained new employees as well as addressed both employee and customer concerns. Maintained and managed supply inventory to include ordering and inspection. Used problem solving skills for supply shortages/depletion, customer and employee concerns, company processes and equipment repair.

MILITARY BACKGROUND

U.S. Air Force Jan 1996 – Jun 2006

E-5, Information Manager

Managed and maintained sensitive electronic and hardcopy data as well as electronic equipment. Ensured all members were in compliance with company/unit/Gov polices and standards. Configured and maintained information systems software/hardware. Created/maintained/reviewed pertinent policies, memos, documents, websites, and databases. Organized/set-up/conducted briefings including those with high-level officials. Provided customer support to entire unit for personnel administrative, information system, and general administration needs.

DEVELOPMENT PROJECTS

E-Yearbook

A full stack web app and group project which uses JavaScript, MySQL, Spring-boot, Maven, APIs, Java, Thymeleaf, GIT, CSS, and HTML. E-yearbook is a site dedicated to electronically signing, and viewing a yearbook. Parents register their children and given access to monitor content. Children/students, can search and leave yearbook comments on each other's page.

AdLister

A paired programming, full-stack Java III web application that allows users to post ads. Technologies used are: MySQL database; JSP; JSTL; sessions and cookies; JDBC; Maven; Tomcat; and Bcrypt. AdLister has full CRUD capabilities for both users and ads and is sanitized to avoid SQL injections via use of prepared statements.

Movie Application

An app where a user may add, remove, and edit a movie and its rating. A paired programming project which uses JavaScript, HTML, CSS, AJAX requests, a json-server for a mock database and incorporates the use of promises, fetching and NPM.

Weather Map Application

A solo project which displays real-time weather based on chosen locations, either via search or moving the map marker. The app uses AJAX to retrieve data from two separate API's.

Coffee Project

A paired programming JavaScript project. Users may search a coffee menu or create a coffee name. Existing JavaScript and HTML code was refactored to include DOM event listeners and search functionality for a better UI experience.

EDUCATION

Codeup

2020

Certificate of Completion

A fully immersive, project-based, an intensive 20-week full-stack Java career accelerator that provides students with 670+ hours of expert instructions in software development.

San Antonio College

May 2015 – Dec 2017

Associates in Applied Science Accounting Technology
Associates in Applied Science Administrative Assistant

Marketable Skills and Level 1 Certificates:

- Accounting Technician
- Accounting Computer Applications
- QuickBooks
- Office Technician
