

# AUGUSTINE CERVANTES

## Software Developer

As a software developer, I am dedicated to learning new skills to expand my knowledge and growth. I love to collaborate and learn from others so that I can apply what I learn and continue to challenge myself. I strive to become a valuable team member and employee in any company.

### TECHNICAL SKILLS

HTML  
CSS  
JavaScript  
Bootstrap  
VCS with Git  
Paired Programming  
Thymeleaf  
Test-Driven Development  
Java SE  
MySQL  
Spring Boot Framework  
jQuery  
Object-Oriented Programming  
Java EE

### PROFESSIONAL EXPERIENCE

**Best Buy** **2010 - 2016**  
Merchandise Lead  
Provided exceptional customer service to ensure that customer needs were met. Cross-trained in multiple departments to execute merchandising standards and product pricing. Trained and acted as a resource for newer or junior staff.

**Frost Bank** **2017 - 2020**  
Operations Clerk  
Received and processed customer and employee requests and issues by email or phone. Updated customer information in compliance with government and bank rules and regulations. Tested new programs and reported bugs. Trained new staff and collaborated with other teams.

### DEVELOPMENT PROJECTS

**E-Yearbook** **August 2020**  
E-Yearbook is a group project and is a full-stack web app which uses JSpring Boot, Thymeleaf, Java, JavaScript, CSS, and HTML. Parents may register and monitor their students on an online yearbook site dedicated to electronically signing yearbook, flip through their yearbook, and print a pdf version of their comments.

**Adlister** **August 2020**  
This group project was created to show a list of Funko Pop ads, allowing users to view ads and to create, edit, and delete their ads. This project utilizes a MVC design with JSP's, Servlets, MySQL and JavaBeans.

**Weather Map** **May 2020**  
Utilized WeatherMap API and Mapbox to create 5 day weather forecast. It displays local weather information and updates when a new location is searched or drop pin is moved.

**Coffee Project** **April 2020**  
A front-end paired programming project that uses Bootstrap grid and JavaScript to allow users to add and sort through a pre-populated list of coffee roasts and flavors.

### ACADEMIC BACKGROUND

**Codeup** **September 2020**  
Certificate of Completion  
A fully-immersive, project-based, and intensive 20-week full-stack Java career accelerator that provides students with 670+ hours of expert instruction in software development.
