## SOFTWARE DEVELOPER

**Phone:** 1-210-548-4472 **Email:** trevor.mullis12@gmail.com **GitHub:** [trevormullis12](#) **LinkedIn:** [trevor-mullis](#)

I am a calm, intuitive thinker and problem solver interested in programming from an early age. Learned web development to use inherent problem-solving skills in a practical way for a career. A perceptive, quick learner that can adapt to unique situations and think through every roadblock. I see programming as a second language that can communicate logic and reason to create useful and well-built applications for an efficient company.

## DEVELOPMENT PROJECTS

### Adventure Buddy

A website for finding new buddies and hiking trails. Used the Spring framework and Thymeleaf to structure a site where users can locate nearby trails using a trail and map API, and create events for other users to join. Worked on wireframes, styling, database functionality, and event CRUD functionality.

### AdLister Project

Used the MVC(Model-View-Controller) layout to construct a local website for listing ads. Users can register for an account, create/delete/edit ads, and view all ads in a list extracted from a MySQL database. Worked on wireframing, and database functionality.

### Coffee Project

Created a list of coffee objects with names and details, and displayed and updated them live according to search parameters. Users can add new coffee objects with automated ease and correction. Directed functionality and style of the page.

## PROFESSIONAL EXPERIENCE

### Lock Em Up Escape Rooms Game Master 2019 to 2020

Required clear and on-time communication to interact with customers. Prioritized and carefully managed time with co-workers to complete any tasks given to us such as handling customers, cleaning, or creating advertisements. Devoted special emphasis to punctuality and worked to maintain outstanding attendance record, consistently arriving to work ready to start immediately. Resolved conflicts if the customer was unsatisfied or confused.

## TECHNICAL SKILLS

- HTML
- CSS
- JavaScript
- Bootstrap
- VCS with Git
- Paired Programming
- Thymeleaf
- Test-Driven Development
- Java SE
- MySQL
- Spring Boot Framework
- JQuery
- Object-Oriented Programming
- Java EE (Servlets, JSP)
- Troubleshooting and debugging
- Advanced problem solving skills

## EDUCATION

### Codeup September/2020 Certificate of Completion

A fully immersive, project-based, and intensive 24 week full stack Java career accelerator that provides students with 670+ hours of expert instruction in software development.
