

BINJITA KANDEL BARAL

SOFTWARE ENGINEER

Web Developer with an ownership mentality operating independently and in a team environment. Knowledge of computer science fundamentals: data structures and algorithms, with an understanding of system development life cycles. Delivering clean and intuitive designs by utilizing a wide range of software, tools, and programming languages. Enjoys building great user experiences with attention to detail. Experience in coding, configuring, maintaining, testing, and debugging existing or new systems. Thrives to work in a fast-paced environment. Love to learn new technology and the software development industry.

CSS	programming
Javascript	Java EE (Servlets, JSP)
Bootstrap	Test-driven development
Git	Microsoft Office Suits
Paired Programming	React.js
jQuery	Node.js
Core Java	Trello
MySQL	CodeStream
Spring Boot Framework	Adobe Comb
Thymeleaf	

Exposure To

Agile Methodology
Jira

DEVELOPMENT PROJECTS

Pokemon Project

An application that lists all pokemon from pokemon API in a Grid Style. Shows an image and information of pokemon in an intuitive way. Implements a search bar that filters and renders a page by pokemon name.

Operation Co-Opt

A Full-stack social application made for gamers who want to branch out and meet new people to play their favorite games with. Built by using HTML, CSS, Javascript, jQuery, Bootstrap, Java, Spring Boot, Thymeleaf, Git, MySQL, and Restful API.

Movie Project

Single page application created using JavaScript to allow the user to edit, delete, and create movie listings. Utilized API calls to achieve these features, and collaborated with teammates via GitHub.

Weather Map Project

This project utilizes Mapbox and Open Weather Map APIs. A user can search for a city, and the view will render the city location with a five-day weather forecast. A pin will render for the city searched, and then a user can drag and drop the pin to update the weather according to location.

EXPERIENCE

La Petite Academy

Early preschool teacher

07/18 – 08/19

Educated students in foundational concepts and promoted physical, academic, and social development by implementing diverse classroom and outside activities.

Nurtured supportive learning environment, often used as model for other classrooms.

Sanju Electronic

Accounting Assistant

11/16 – 02/18

Evaluated employee expense reports and verified accuracy. Overseeing basic accounting and bookkeeping practices. Monitored status of accounts receivable and payable to facilitate efficient processing. Reviewed general ledger entries and assessed accuracy. Preparing monthly financial returns and variance reporting.

EDUCATION

Codeup

Certification of completion

05/20 - 11/20

A fully-immersive, project-based, and intensive 20-week full-stack Java career accelerator that provides students with 670+ hours of expert instruction in software development.

Northwest Vista College-Alamo Colleges

Associate of Arts: Business Administration

GPA: 3.9

07/18 – 05/20

Completed 62 credit hrs in Business Administration with specialization in Information System and took credit on Programming languages including Java.

Balkumari College-Tribhuvan University

Bachelor of Arts: Business Administration

05/15 – 04/18

Graduated in Bachelors in Business Administration
