SUMMARY

As a Software Developer I love the idea of fixing problems with the most optimal solutions. I am a life long learner who is not afraid to go to the ends of the earth for the correct answer. As a person with a background in creating interpersonal relationships I am confident I would be a great addition to any team.

TECHNICAL SKILLS

- HTML
- CSS
- JavaScript
- Bootstrap
- VCS with Git
- Paired Programming
- Thymeleaf
- Test-Driven Development
- JavaSE
- MySQL
- Spring Boot Framework
- jQuery
- Object-Oriented Programming
- Java EE (Servlets, JSP)

DEVELOPMENT PROJECTS

Yum-Rando

Full Stack Java web-App built on Spring-boot Framework allowing users to randomize their next meal choice. Using HTML, thymeleaf, and CSS, and Bootstrap for the frontend document view, while using Java for backend architecture, SpringBoot for MVC manipulation, and MySQL for our database creation.

Choose Your Own Adventure

Using binary tree models and encapsulation I created a playable choose your own adventure game, using basic input output commands, I call Labyrinth accessible through a GUI I designed I created using JFrame and Jwindow.

PROFESSIONAL EXPERIENCE

Aspen Creek Grill -- Lubbock, Texas **2019-2020**
Waiter

Responsible for providing a high-caliber experience and exceptional customer service skills to a discerning clientele. Job functions included providing diners with a detailed overview of specials and menu items, answering questions about complex dish preparation, conducting final check of food items prior to serving customers to ensure quality maintenance, as well as assisting in training two new servers, ensuring attention to detail and comprehensive understanding of the restaurant methodology and practices.

Alorica (U.S. Bank Division) -- San Antonio, Texas 2018-2019

Customer Service Associate

Used multiple programs for operations such as reference material, scheduling measures, and validating account information. I had to continue my education with the constantly changing subject matter. I assisted cardholders in many different forms of monetary transactions, including fraudulent escalations. All the while providing the best possible experience for the account holders.

EDUCATION

Codeup **2021**
Certificate

A fully-immersive, project-based, and intensive 22-week full-stack Java career accelerator that provides students with 670+ hours of expert instruction in software development.
