

Ryan Kendall

Software Developer

ryan.morris.kendall@gmail.com | (858) 705-0837 | GitHub | LinkedIn

Solution driven, full-stack software developer seeking to join an environment where I can be a meaningful contributor and continue to elevate my skills through collaboration. As a 23 year veteran, I am unhindered by austere or challenging conditions. I am a tenacious problem solver and steadfast in seeing tasks through to completion. Having developed and led multiple teams, I have established myself as a servant leader who promotes fairness, dignity, the value of clear, concise communication and timely feedback.

Technical Skills

- HTML, CSS, JavaScript, Java, jQuery, C++
- Git, IntelliJ, Visual Studio, Junit, MySQL
- Data Structures, Algorithms, Technical Writing, Unit Testing

Development Projects

Sidecar

The Sidecar website provides a central location for motorcyclists to view local points of interest, popular routes and upcoming events in the riding community. Registered users are the content creators for the site and through the Google maps platform, all site visitors will be able to open routes for navigation and directions.

Languages: Java, Javascript, JQuery, HTML, CSS and SASS

Beyond Monopoly

A Craigslist style of website themed as a place to buy and sell used games. Visitors have the ability to search through items available and users can buy and sell said items. MySQL was used to maintain a database of users and ads.

Languages: Java, CSS

Weather App

A single webpage initially centered on San Antonio, TX and providing a 5-day weather forecast with map display. A search function enables the site visitor to search for other locations. The map and weather information are updated when a new location is selected. Both are accomplished by using the Mapbox and OpenWeatherMap APIs.

Languages: HTML, CSS, jQuery, AJAX

Military Background

United States Marine Corps -- Worldwide

1986 - 2009

Gunnery Sergeant

- Received eleven awards and a promotion for superior performance of assigned responsibilities; stateside, overseas, at-sea and in combat.
- Served as a member of a working group to develop the Marine Corps' next deployable air traffic control tower; working with engineers, technicians and fellow controllers on equipment, ergonomic and survivability requirements.
- Successfully lived and worked in eleven different countries through respect, study and adoption of local customs, culture and language.
- Held a secret clearance from 1990 – 2009 and served as a Security Clearance manager from 2006-2009.

Professional Experience

American Motorhead -- San Marcos, California 2015 - 2017

Information Technology Manager

- Reduced trouble call response from 3+ days to same day and down time from 7-10 days to either hours (same day) or upon receipt of replacement asset, when required.
- Administered and maintained all IT related assets for two motorcycle dealerships; Biggs Harley-Davidson and North County Indian. Assets included 65+ PCs and Laptops, 25+ printers, scanners, credit card readers, diagnostic readers, phones and corporate server.
- Administered and maintained all Microsoft Office365 email accounts and software packages for both dealerships; approximately 70+ employees.

Red Beard Leather -- Vista, California 2015 - 2017

Office/Shop Manager

- Developed, instituted and maintained a system for initiating, progress tracking and prioritizing customer orders.
- Developed and published spreadsheets for tracking monthly categorized material expenditures and location-based sales tax reports.
- Provided communication between customers, vendors and artists regarding bulk and custom orders as to estimated costs, deposits, final payments, estimated completion dates and shipping notifications.

American Motorhead -- San Marcos, California 2014 - 2015

Rental Agent

- Conducted readiness and safety checks on a fleet of 25+ motorcycles.
- Identified and scheduled interval maintenance, recalls and repair needs on said fleet.
- Provided customer service for said rental fleet to include rental scheduling, pick-up, drop off, delivery, replacement and roadside assistance.

Education

Codeup 2021

Certificate

A fully-immersive, project-based, and intensive 22-week full-stack Java career accelerator that provides students with 670+ hours of expert instruction in software development.

Moberly Area Community College 2011 - 2013

Associates Degree – Liberal Arts
