DEVELOPMENT PROJECTS

Baking Buddy

Baking buddy is a full-stack application that allows customers to connect with small home baking businesses in their area. Built using MVC design pattern, Spring Boot with Spring Security, Thymeleaf, MySQL as well Filestack API. Baking buddy provides the opportunity to support small baking businesses that may have otherwise been overlooked.

P Address Tracker

An application designed to allow users to track IP addresses using Mapbox API and IPify API. Utilized JavaScript, CSS, and HTML to build this application.

Movie Application

Web application platform designed to give users the ability to upload, search, edit, delete, and rate information about movies. Utilized JavaScript, JSON, HTML, CSS, and Bootstrap to build this application.

Weather Map Application

A 5-day forecast application designed to allow users to search forecasts anywhere the world using Mapbox API and OpenWeatherMap API. Utilized JavaScript, jQuery, CSS, and HTML to build this application.
