Spring, Thymeleaf, MySQL,  
Object-Oriented Programming,  
Test-Driven Development, Version  
Control with Git, Paired  
Programming

## Education

### Codeup

Certificate of Completion  
Jan 2020 - May 2020

A fully-immersive, project-based, and intensive 22-week Full-Stack Java Career Accelerator that provides students with 670 hours of expert instruction in software development.

Software developer with a passion for anything and everything tech. Former contractor in several fields have given me the utilities to be a great problem solver, adapt to any situation, and have strong communication skills. With my curiosity about tech plus my eagerness to develop I want to create applications that make a positive change in everyday software.

## Development Projects

### [OutfitterExpert](#)

Designed and developed a full-stack web application for Outfitter Expert, a startup company based in Austin, Texas that hosts an online travel booking marketplace for hunting and fishing. Using MySQL database commands to sort and filter by region, species, trip price, etc. This ensures that all desired trips are easy to advertise, search, compare and book. This project is being built using a combination of Spring, Thymeleaf, Java, jQuery Bootstrap, and CSS.

### [Coffee Project](#)

This project is designed to display added and existing coffee types in a local storage. This was another paired project that involved HTML, CSS, and JS.

### [Weather Application](#)

Users can search any location by name or drag a pin that will then give an accurate, current and weekly forecast. Lone project that includes AJAX, Mapbox API, OpenWeatherMap API, and CSS to change the background in real time to a video/gif of the current weather..

### [Java Adlister](#)

Group project built with HTML, Bootstrap, MySQL, JavaEE (Servlets, JSP), and Tomcat. This full-stack application is a Craigslist clone that allows a user to view all currently-posted ads. Users can also register on the app, allowing them to add, edit, and delete their own ads.

## Professional Experience

### **Gratr Landscapes Ltd** - San Antonio, TX

*Branch Manager* / Jun 2015 - Today

- Promoted to Branch Manager within the first two years showcasing operational skills, property management, and strong partnerships with exciting and new contracts
- Managed and coordinated landscaping logistics of 5+ crews averaging 5-8 commercial job sites daily.
- Saved the company an average of \$300-\$400 per job site in contracted labor expenses over a span of 4 years
- Established relationships with 30 property managers yielding into 30 weekly services and 150+ seasonal and special services
- Conserved crews morale to achieve a high level of workflow.

### **Wolfman Chimney & Wildlife** - New Braunfels, TX

*Sales Representative* / Technician August 2019 - March 2020

- Learned how to maintain a high sales rate within the first two weeks by being adaptable to any situation and being able to connect with many customers.
- Expanded my knowledge by taking a week-long roof sales workshop that gave me another perspective on how to interact with customers and crews that might not always be content, this helped increase my communication skills.
