Software developer who previously served in the United States Marine Corps as a military police K9 handler. With my enthusiasm for technology in mind, a career in tech as a developer I can merge creativity and code to better serve users through functional technology allowing me to continually grow as a person and excel in a career path that I truly enjoy.

Technical Skills

HTML - CSS - Bootstrap - JavaScript - jQuery - Java SE - Java EE (Servlets, JSP) - Spring-Boot - MySQL - Object-Oriented Programming - Test-Driven Development - Version Control with Git - Paired Programming

Development Projects

[Top-Teer \(Capstone\)](#)

Top-Teer is an event coordinating application that puts volunteers in touch with opportunities led by the event coordinator. Making the process of volunteering in the community more accessible to application users. Top-Teer was created using Spring Boot, Spring Boot Security, Java, Javascript, MySql, Html, CSS, Bootstrap, JQuery, Send Grid API

[Java Adlister](#)

Group project built with HTML, Bootstrap, MySQL, JavaEE (Servlets, JSP), and Tomcat. This full-stack application is a Craigslist clone that allows a user to view all currently-posted ads. Users can also register on the app, allowing them to add, edit, and delete their own ads.

[Movie API](#)

Utilized HTML, CSS, JavaScript, and jQuery to create a movie database that is similar to IMDB or Rotten Tomatoes. Within the project, you are able to look up movies and pull information regarding them along with movie posters. Being able to add, delete and edit is also an option.

[Weather Map](#)

Utilized JavaScript and OpenWeatherApp API to create a map that allows you to get real-time weather in the location of your choosing and display it in a five-day forecast.

[Coffee Page](#)

Created a JavaScript application to allow users to search, add, and delete coffee roasts utilizing HTML, CSS, JavaScript, and jQuery. It has the functionality to allow the user to create their own coffee blends, add them to the database, and delete them. The user can also browse the current selection and filter by name.

Military Experience

Military Police Officer - Twentynine Palms, CA

Patrolman, Desk Sergeant, Patrol Sergeant / Mar 2011 - Mar 2013

- Within 2 years of being a Military Police Officer, I went from working gates to leading the team and patrols which usually take 4-5 years to achieve.
- Tasked with the safety and well being of approximately 20,000 military personnel and civilians safety on the base that stretched over 998 square miles.
- Managed an inventory of roughly \$1,000,000 of police gear which included firearms, tasers, radios, and protective gear. Also ensured the safety and well-being of individuals who were detained and their property.
- Led and managed 2 civilian 911 dispatchers and 11 military patrolmen

Military Working Dog Handler - Twentynine Palms, CA

Combat Tracker / Jan 2008 - Mar 2011

- Ensured the safety and well-being of 40+ K9's totaling over \$2,000,000
- Trained and/or assisted in training of 45+ K9's that completed multiple missions.

Education

Codeup

Certification of Completion

Mar 2021 - Current

A fully-immersive, project-based, and intensive 22-week Full-Stack Java Career Accelerator that provides students with 670 hours of expert instruction in software development.

South Texas Vocational Technical Institute

Certification of Completion

Jan 2020 - Jan 2021

A one year trade school where I learned how to diagnose and repair vehicles. While attending I became certified in multiple fields such as engine repair, brakes, transmissions, engine performance, steering, suspensions, diagnostics and charging systems.

Southern Careers Institute

Certification of Completion

June 2019 - Dec 2019

A 6 month trade school where I learned how to stick, mig and tig weld. While attending I started my own business in welding and fabrication.
