[LinkedIn/WagnerCharles](#)
[GitHub/WagnerCharles](#)

Army veteran and Software Developer with experience organizing presentations, preparing facility reports, cyber security, project management, IT engineering, and information assurance. Recognized as a gifted technician and leader with extraordinary interpersonal skills with outstanding leadership and problem-solving abilities. Looking to leverage my knowledge in a respectable company such as this one and expand on my knowledge base as a Software Engineer.

Technical Skills

HTML - CSS - Bootstrap - JavaScript - jQuery - Java SE - Java EE (Servlets, JSP) - Spring - MySQL - Thymeleaf - Object-Oriented Programming - Test-Driven Development - Version Control with Git - Paired Programming

Development Projects

[TripHub](#)

A collaborative team application using Javascript, Bootstrap, CSS, HTML, Java, MySQL, Spring, Thymeleaf, JQuery, REST API, JPA & Hibernate, and OAuth2.0 and several APIs including MapboxGL API, and OpenTripMap API that will allow users to find, schedule and collaborate on popular destinations and events for an upcoming trip with your friends and family.

[Park City, Utah](#)

A simple flyer for all the events that can be held at one of Park City Utah's great parks. It uses Bootstrap and has a responsive display when seen on both mobile devices, tablets, and desktops.

[CallManager](#)

A Java program that allows users to sort through a database of stored contacts names and phone numbers. It follows the basic functions of persistence storage CRUD. Users are able to create, read, update, and delete entries within the database.

[Mr. Bean](#)

A fully functional paired programming web application. Worked with others using Javascript, HTML, CSS, and AJAX. Created a mobile coffee shop with the option to add, delete, and edit your own if you don't like our suggestions.

Military Experience

US Army

Senior Information technology Specialist / Aug 2013 - Apr 2020

- Interacted with network services, software systems engineering, and/or applications development to restore service and/or identify and troubleshoot core problems
- Managed a team of six personnel and supported their ability to solve network and computer errors
- Implemented security control measures to ensure network compliance and harden cyber security
- Became a master at Scripting (Script kitty) and successfully implemented a Performed Risk Management Framework (RMF)
- Constructed IT service management framework to replaced network devices valued at \$20 million dollars

Professional Experience

SOUTHCOM - Miami, FL

NCC Watch Officer / Apr 2020 - Apr 2021

- Managed and reported on network performance, and performed detailed network analysis with ORION and Solar Winds
- Analyzed capacity data, developed plans for appropriate level enterprise-wide systems, and coordinated with appropriate management personnel in implementing changes
- Planned, coordinated, and directed appropriate level data refresh strategies and logged incident report tickets

Education

Codeup

Certification of Completion

Apr 2021 - Oct 2021

A fully immersive, project-based, and intensive 22-week Full-Stack Java Career Accelerator that provides students with 670 hours of expert instruction in software development.

Florida International University

Bachelor in Computer Science

Apr 2020 - Present

Fayetteville Technical Community College

Associate Degree

2019 - 2020
