Sam Houston State University

Aug 2016 - May 2018

Completed 2 years of undergrad

Computer Science program

University of South Carolina

Bachelor of Criminal Justice

Aug 2009 - Dec 2013

Resilient Software Developer and professional with strong interpersonal skills, analytical skills, and ability to work independently or within a collaborative setting. Programming began as a hobby, but my interest continued to grow and inspired me to pursue it as a full time career. Web development has opened up a new world for me, and I hope to bring the soft and hard skills I have learned along the way to help my future team.

Development Projects

[Capstone: Seru](#)

Seru is a web application used for the tracking of games on sale from over 13 different online gaming distributors, and developers. Find the lowest price for games you want! This was a group project effort with 4 members built using HTML/CSS/Bootstrap/Javascript/Jquery/Spring/Java/MySQL.

[Coffee app](#)

The Coffee app is a Javascript web application that allows users to sort, add, and delete a coffee by name or roast. This was a paired programming effort built using HTML/CSS/Javascript.

[Weathermap app](#)

Built a JavaScript application that gave a 5 day weather forecast for the area that the user searched or clicked on the map using both the Mapbox API and OpenWeatherApp API. This was a solo programming effort that was built using HTML/CSS/Javascript/jQuery.

[Movie database app](#)

Created a JavaScript application that permitted users to edit, add, and delete movies from a webpage using jQuery. This was a paired programming effort that was built using HTML/CSS/jQuery/Javascript.
