JavaScript, jQuery,

Java SE, Java EE (Servlets, JSP),  
Spring, Thymeleaf, MySQL,

Object-Oriented Programming,

Test-Driven Development, Version

Control with Git, Paired Programming

## Education

### Codeup

Certification of Completion

Apr 2021 - Oct 2021

A fully-immersive, project-based, and intensive 22-week Full-Stack Java Career Accelerator that provides students with 670 hours of expert instruction in software development.

### Everest College

Medical Assistant

Oct 2009 - Jun 2010

Completed a nine month course to graduate with a medical assistant degree

Software developer and former Medical Assistant with experience in organizing presentations, preparing facility reports, and leading teams. A natural fascination for computers and analyzing data coupled with the influence from developers in my network led to the decision to transition to a technology based career. Looking to continue growing as a developer and to put myself in a position to leverage my leadership skills to build dynamic teams.

## Development Projects

### [ByteOptions](#)

A Codeup Capstone team project that was designed to allow users to search new recipe's, how-to youtube videos and provide healthier options all by the provided food keywords. This application was created using Java, Springboot, Hibernate, Thymleaf, Jquery, MySQL, Custom CSS, bootstrap, JavaScript, MapBox API, spoonacular API, Google API and with basic CRUD methods. My role was heavily focused on the back-end.

### [Coffee Project](#)

Created a JavaScript application with a group to allow users to search, add, delete and update coffee roast, then styled with BootStrap. The application was designed to resemble a coffee shop website so users can view and select different types of coffee roast.

### [WeatherMap Project](#)

I created a WeatherMap by implementing a MapBox API to display real time weather with a five day forecast anywhere in the world. I utilized HTML, JavaScript, BoothStrap and jQuery on this project.

### [Movie Project](#)

Created a Movie website with a partner that allows the owner to display current movies being played all while having the ability to add, update, delete and edit current movies.

## Professional Experience

### Little Spurs Urgent Care - San Antonio, TX

*Lead Medical Assistant* / Oct 2019 - Mar 2021

- Managed large sets of patient data while adhering to HIPPA laws and confidentiality agreements
