## Technical Skills

HTML, CSS, Bootstrap,

JavaScript, jQuery,

Java SE, Java EE

Object-Oriented Programming,

Test-Driven Development, Version

Control with Git, Paired Programming

## Education

### Codeup

Certificate of Completion

Dec 2020 - June 2021

A fully-immersive, project-based, and intensive 22-week Full-Stack Java Career Accelerator that provides students with 670 hours of expert instruction in software development

### Texas State University

Bachelor of Psychology

August 2012 - May 2015

With a focus in Forensic Psychology

As a Software Developer I intend to integrate my customer-facing skills into data-focused and user-focused technologies. I believe that being able to understand the needs of the consumers should be a core focus in building an interactive program. My eagerness to learn new material is the reason I chose a rapidly developing field.

## Development Projects

### Weather Application

Used Mapbox API and OpenWeatherApp API with JavaScript to display a 5-day weather forecast

### Liquor Store App

A Java full stack application that utilizes a tomcat to render java code into client side visibility.

### Coffee Project

Created a JavaScript application to allow users to search, add, and delete coffee roasts, then styled with Bootstrap

### Mortgage Calculator

The Mortgage Calculator is a Command Line Application in Java. The application prompts the user for information and calculates the monthly mortgage payment.

## Professional Experience

### Kirby's Steakhouse - San Antonio, TX

Server / Jun 2019 - Nov 2020

- Lead a team to handle large-scaled events of 50 plus guests. Being able to actively communicate with the team and the kitchen staff to keep the flow of service running smoothly.
- Developed wine knowledge to better assist guests by being able to listen to what flavors they enjoy and recommend the perfect bottle that will also pair well with their entree choice.
- Collected useful data to record into our OpenTable database. I would include data on food allergies, food preferences, wine preferences, and special events to ensure our guests always have a high level of service.

### Lucy Cooper's - San Antonio, TX

Server / Nov 2018 - Jun 2019

- Trained new employees to use the RPower database to record and send food orders to the kitchen printer.
- Ability to notice change in guest behavior and quickly problem-solve a next step to ensure safety of all guests.
- Adapted to high-volume situations by communicating with the team on workflow. Able to implement separations of concerns to better assist the guest.
