Technical Skills

HTML - CSS - Bootstrap - JavaScript - jQuery - Java SE - Java EE (Servlets, JSP) - Spring-Boot - MySQL - Thymeleaf
- Object-Oriented Programming - Test-Driven Development - Version Control with Git - Paired Programming

Development Projects

[Movie Review Application](#)

Used JavaScript, Bootstrap and ajax requests to allow users to search, add, and delete movie information by name and category, the application was created to simulate something such as IMBD or Rotten Tomatoes, you can rate and review your favorite movies as well as add new movies to the current page. The Studio Ghibli movie database was used to pull in information about all movies created by Studio Ghibli to include a default image, year, rating and synopsis.

[Coffee Project](#)

Created a JavaScript application to allow users to search, add, and delete coffee roasts, then styled with Bulma. It was created and styled to replicate the "Starbucks" website. It has the functionality to allow the user to create their own coffee blends, add them to the database and delete them. The user can also browse the current selection and filter by name.

[TierOne](#)

The Tier-One hiring application was created using Java, Spring, the Filestack API, Tailwind, Bootstrap and traditional styling languages. This application allows users to submit education and job experience into a profile, the user can then upload a profile picture and credentials to allow recruiters to view their complete profile. Recruiters and hiring managers can use the application to filter through candidates with specific qualifications to find the best candidate. This application can also be found [here](#).

Military Experience

United States Navy - Pensacola, FL

Enlisted Administrative Supervisor, Utilization Management / January 2018 - May 2019

- Spearheaded development of Standards Operating Procedures that increased unit productivity by 50%. Leading Naval Hospital Pensacola to reach the inspector general's requirements in just under three months upon my transfer and promotion to supervisor after the hospital was not expected to reach the goal within 9 to 12 months
- Actively Maintained Electronic Health Records for over 8,000 beneficiaries while clearing, transcribing and uploading the backlog of over 15k reports in under 90 days

United States Navy - Mayport, FL

Assistant Clinic Manager of Naval Fourth Fleet / June 2015 - January 2018

- Worked outside of scope of practice due to manning shortage. Uploaded and processed over 1800 patient reports in six months, alleviating an extensive workload for health benefit advisors. Resulting in 98% readiness for over 14 Ships, 35 Tenant commands and 6035 beneficiaries
- Assisted in Purchasing, budgeting and managing over 195k worth of pharmaceuticals per ship totaling \$2,730,000 reducing the medication import cost by \$450,000 per ship, per deployment

Professional Experience

Naval Station Mayport Public Affairs - Jacksonville,FL

Volunteer Assistant Public Affairs Specialist / July 2015 - December 2017

- Developed, planned, and implemented all program presentations, marketing materials, campaigns and social media content amplification strategies; served as the assistant point of contact for communication and liaison with internal and external agencies, vendors, and contractors and media outlets
- Ensured emerging platforms, tools, trends, and deployment were in line with organizational policies and best practices; created impactful, strategic, and optimized-by-channel social media content to include images, videos, and captions and descriptions that integrate maximized messaging narrative and creative sequencing
