 [GitHub/yishmaelh](https://github.com/yishmaelh)

Marine Corps Veteran and software developer who excels in leadership, problem-solving, communication, and teamwork. I transitioned into software engineering to become part of an ever-evolving industry where creative problem solvers can construct futuristic database tools with efficient code. My combination of military experience and the constant desire to learn will allow me to achieve my goal of creating meaningful and efficient code.

Technical Skills

HTML - CSS - Bootstrap - JavaScript - jQuery - Java SE - Java EE (Servlets, JSP) - Spring - MySQL - Thymeleaf - Object-Oriented Programming - Test-Driven Development - Version Control with Git - Paired Programming

Development Projects

[MyThyme](#)

MyThyme is an app designed to make cost effective shopping seamless for everyone. Users can select items they wish to buy, and will be given an estimate of their cart, making budgeting for groceries simple. Users can also save and share their created grocery lists, while also being provided recommended recipes based on items on their list. MyThyme was created by a group of 4 developers, utilizing Java, JavaScript, MySQL, Spring Boot, HTML, CSS and several APIs.

[Adlister](#)

The adlister is designed to allow users to post, edit and view ads, similar to Craigslist. Users can also edit and delete their ads. It was built with Java and Spring Boot.

[Contacts Manager](#)

This program allows the user to view, search, add and delete contacts of their choosing. This is a group project that utilizes Java to enable the user to modify a text file directly.

[Movie Project](#)

A web application that enables users to add and rate movies. They can also edit movie descriptions and ratings, as well as delete existing entries. The movie project is a paired programming exercise constructed with jQuery, HTML, CSS, and JavaScript.

[Coffee Project](#)

A web application that allows users to search and filter various types of coffee by name or roast. Implements jQuery, HTML, CSS and JavaScript. Completed with paired programming.

Military Experience

United States Marine Corps - Twentynine Palms, CA

Landing Support Specialist / Apr 2017 - July 2018

- Utilized Microsoft Office for database management or word processing.
- Performed monthly inventories and inspections, maintaining 100% accountability. Operated electronic mail systems and coordinated the flow of information, internally or with other organizations.
- Earned Combat Marksmanship Coach certification
- Trained 200 Marines in Marine Corps marksmanship, resulting in 145 experts, 40 sharpshooters, and 15 marksmen.

United States Marine Corps - Okinawa, Okinawa Prefecture, Japan

Landing Support Specialist / Mar 2015 - Mar 2017

- Planned and executed the movement of 75-100 personnel and equipment as required for necessary training events as part of an embarkation unit.
- Received promotion to Corporal, becoming a Non-Commissioned Officer.
- Performed monthly inventories and inspections of equipment and operation supplies, maintaining 100% accountability.
- Received promotion to Lance Corporal.
- Planned and executed logistical moves as required for training exercises in Korea, totaling over 400 personnel and over \$7 million in military-grade cargo and equipment, utilizing sea and air transportation routes.
- Coordinated the movement of over 600 personnel and 1,000 principle end items via aircraft and ships in support of joint training exercises in the Philippines, totaling over \$12 million in government equipment
- Facilitated the movement of 200 personnel and over \$5 million in government equipment to support small unit training in Thailand as part of Cobra Gold 2017.

United States Marine Corps- Okinawa, Okinawa Prefecture, Japan

Company Clerk / Mar 2015 - Mar 2017

- Utilized ServMart via Microsoft Access to purchase necessary supplies and equipment.
- Worked directly under the Executive Officer, providing quarterly training updates with PowerPoint and providing necessary fiscal training requirements with Excel and Outlook.
- Utilized Microsoft Office for various applications, such as database management or word processing.
- Trained the next Company Clerk and consolidated all procedures and standards into a turnover binder, allowing a seamless transition between personnel without disrupting workflow.
- Maintained the company training rate at 100%, ensuring 250 Marines were updated with fiscal and calendar year training requirements.

Professional Experience

First Texas Honda - Austin, TX

Service Advisor / Jan 2019 - May 2021

- Achieved an average of 93.4 Customer Service Experience score, demonstrating excellent customer service.
- Met and exceeded monthly sales quotas for 21/28 months as a Service Advisor.
- Communicated with an average of 17 customers daily, annotating their automotive concerns to relay to Honda certified technicians.
- Facilitated goodwill requests to the Honda District Manager, securing assistance for customer repairs on behalf of Honda Corporate, saving customers over \$40,000 in repairs.
- Presented technician's Multi-Point Inspection results to the customers, translating technical data into easy-to-understand information, allowing customers to make informed decisions about their vehicle's needs.
- Operated CDK Global to create customer accounts, schedule appointments, and communicate with technicians.

Education

Codeup

Certification of Completion

May 2021 - Nov 2021

A fully-immersive, project-based, and intensive 22-week Full-Stack Java Career Accelerator that provides students with 670 hours of expert instruction in software development
