Education

Codeup

Certification of Completion
Aug. 2021 - Feb. 2022

A fully-immersive, project-based, and intensive 22-week Full-Stack Java Career Accelerator that provides students with 670 hours of expert instruction in software development and concludes with a Capstone project.

Passionate Software Developer with previous experience in project management and customer service in the luxury automotive industry. Utilizing full-stack skills to obtain results, solve problems, and build programs that fulfill user needs.

Development Projects

[TravelBuddy](#)

Created a full-stack travel advisor that promotes local businesses by allowing users to leave reviews with photos, bookmark locations, and see locations on a map. The application was accomplished in a team setting and built with Java in the Spring framework. My contribution to the project was the design and implementation of the database, which allows for full CRUD functionality utilizing MySQL, Java, HTML, Bootstrap, and JavaScript.

[Carlister](#)

A full-stack Craigslist clone built with Java using the MVC pattern and CRUD functionality. Allows users to register for an account, view, post, edit, and delete ads from a MySQL database. Uses Java servlets and JSPs to render the website and functionality. This group project utilizes Java, HTML, Bootstrap, and MySQL.

[Weather Map](#)

Created an application that displays a multi-day weather forecast. Allows users to search a location or drag and drop a marker to see that location's current weather and 5-day forecast. This application utilizes HTML, Bootstrap, JavaScript, and APIs.

Professional Experience

North Park Lexus San Antonio, TX

Service Advisor Jan. 2021 - Aug. 2021

- Promoted customer engagement and support through 100+ customer repair sessions per week
- Managed technical solutions by collaborating with six technicians and overseeing their execution to reduce service downtime

Internal Service Advisor Aug. 2020 - Jan. 2021

- Managed Lexus certification process to increase inspection compliance of over 150 cars each month
- Supervised the asset management of \$1M in-car inventory to ensure mechanical repairs did not exceed 10% of the car value to maintain ROI

Internal Restoration Advisor Sept. 2016 - Aug. 2020

- Strategically promoted to transition an outsourced restoration program to an internal operation to decrease costs
- Piloted partnership with the vendor to create internal restoration department, repairing over 100 cars each month saving \$50,000 in expenses
- Provided cost estimates, coordinated repairs, and finalized invoices

Assistant Service Advisor May. 2016 - Sept. 2016

- Promoted twice within the previous year by showcasing strong customer relations and project management
- Assisted Service Advisors with customer appointments
- Ordered parts, delegated work to technicians, and followed up with customers
