

# Jose Maldonado

Software Developer

Dynamic Software developer with customer service and sales experience. What I would bring to the table is integrity, positivity, and energy. I do not shy away from challenges and I'm not afraid of learning new things or asking for help.

## Development Projects

### [Share](#)

This is a web application where users can share or sell unused items for a fee. Users of the application can utilize personal profiles, leave user reviews, User Application was made as an MVC design pattern, and implements full CRUD functionality with the custom built database. This application uses Java, Spring Boot, MySQL, Thymeleaf, HTML, Bootstrap, and CSS.

### [Swaglist Project](#)

This is a web application allowing users to create an account, view, edit and post ads to sell different fashion appeal. Visitors can view ads or create an account. This application uses Java, MySQL, HTML, Bootstrap, and CSS.

### [Movie Database Application](#)

This is a single-page movie application that allows users to add, delete, edit and showcase movies of their choice. The user can curate their own movie library. This application uses a JSON server, AJAX, Javascript, HTML/CSS, bootstrap, jQuery, and an external movie API (OMDB).
