Full-Stack Software Developer and United States Marine Corps Veteran with a fully adjudicated and **active TS/SCI** clearance with CI polygraph looking to bring the leadership, communication, problem-solving, and technical skills developed over a 13-year military career into business to leverage the latest technologies and outside-the-box-thinking to tackle your challenges.

Technical Skills

HTML - CSS - Bootstrap - JavaScript - jQuery - Java SE - Java EE (Servlets, JSP) - Spring - MySQL - Thymeleaf - Object-Oriented Programming - Test-Driven Development - Version Control with Git - Paired Programming

Development Projects

Jobtographer

Full-stack web application built in a 5-man team utilizing Agile & Scrum methods. Designed to help a user build a customized 5-year plan to obtain necessary certifications & schooling for a chosen career field. The application takes in information from multiple API sources as well as local databases built in MySQL to maintain the information and utilizes Java & Javascript to dynamically create interactive content. Customized CSS layered over the modern Bootstrap library provided styling and visual content.

Adlister

A cradle-to-grave full-stack web application developed in a 4-man team under Agile & Scrum methodologies. It allows a user to register and login to the application and view, post, update and delete advertisements as well as their own user data. The application leverages Java, HTML, the Bootstrap CSS/Javascript Library to implement full CRUD functionality using MySQL in accordance with all coding standards and best practices, to include defenses against malicious user input.

Movies R Us

Movies R Us is a web application that displays a searchable and filterable database of movie titles with full CRUD functionality. Custom HTML, CSS, and Javascript were integrated into the design and functionality, as well as the jQuery and Bootstrap code libraries. Additionally created a custom logo with vector software (Vectornator) to integrate fully with the look and feel of the application.

Military Experience

NSA in Texas - San Antonio, TX

Signal Intelligence Analyst and Compliance Adjudicator / Oct 2018 - April 2022

- Led and developed teams of up to 10 joint-service and civilian affiliates in the conduct of signals intelligence activities, leading to the successful and efficient execution of all tasks
- Oversaw 20+ joint-service and civilian affiliates in compliance with all regulations and policies, ensuring the proper and effective conduct of tasks and reports
- Operationally utilized Spanish language skills and reviewed the work of others for quality and completeness in the language
- Maintained utmost discretion when dealing with sensitive topics.

Headquarters Marine Corps, Intelligence Department - Arlington, VA
Foreign Language Policy Analyst / Sep 2014 - Apr 2018

- Reviewed and developed policies regarding the utilization and incentivization of foreign language skills across the entire Marine Corps
- Developed a new methodology for the creation of reports to Congress, resulting in reducing the required time by over 50% while improving report accuracy; reducing completion time to less than 2 weeks from a month
- Created and implemented a digital system to track and approve requests for foreign language incentive pay, modernizing an outdated 20-year old system, leading to a reduction of 80% to process requests and greatly eased the tracking and reporting of all requests.
- Led the development of new criteria and methods for the receipt of foreign language incentive pay, allowing the retention of the incentive by over 80% for the eligible population while ensuring compliance with the newly reduced budget of $4.2M from $13.1M.

2d Radio Battalion - Camp Lejeune, NC
Team Leader / Jul 2011 - Sep 2014

- Led a small team of 5 during high stress situations inside and outside of training environments, providing clear communication and direction to team members, coordinating with higher leadership from a distance, and integrating into a larger and disparate element, enhancing their ability to complete their missions in a timely, efficient, and safe manner.
- Uncovered and developed a plan to acquire over $3,000,000 worth of inherited missing equipment while maintaining full accountability of and preventing the degradation of all equipment, to include Top Secret classified gear, in total valued at over $8,000,000.
- After departure from position, team members were able to use skills and attitudes instilled previously to successfully complete a worldwide deployment over the period of 9 months with the highest levels of accomplishment.

Education

Codeup
Certification of Completion
Jan 2020 - Jul 2020
A fully-immersive, project-based, and intensive 20-week Full-Stack Java Career Accelerator that provides students with 670 hours of expert instruction in software development

Marine Analysis & Reporting Course
Certificate of Completion
Apr 2018 - Sep 2018
Completed as the Top Student in a course for intelligence analysis. Required the fusion of different products, reporting requirements, and vehicles associated with the United States Intelligence Community.

American Military University
Sep 2015 - May 2016
Completed studies focusing on finishing general education requirements.

Defense Language Institute
Certificate of Completion
Jun 2010 - Dec 2010
Completed a 6-month fully immersive course in the Spanish language that takes the student from little exposure to the proficiency equivalent of a native high school graduate.
