[GitHub/louie-espinosa](https://github.com/louie-espinosa)

Software Developer and Marine Corps Veteran with project management, leadership, training development, and process improvement. Merging military experience with full-stack skill to develop innovative technology that allows users to “master their tasks” by bridging the gap between developers and users.

Technical Skills

HTML - CSS - Bootstrap - JavaScript - Java SE - Java EE Google Cloud OAuth - Spring - MySQL - Thymeleaf - Object-Oriented Programming - Test-Driven Development - Version Control with Git - Paired Programming - JUnit testing - Spring OAuth

Development Projects

[Movies Project](#)

Movies Project as a paired project using an API on Glitch with Jalopy as the framework. Used fetch Post to add to the API and update movies available. Used JavaScript to create cards that displayed movie art and data associated with a given movie, and access categories of movies. Used CSS Bootstrap to style the application to improve user experience with contemporary layout

[Coffee Project](#)

Coffee Project as a paired project that displays coffee names with roast levels that enables a user to select a drink by name and roast level. Used forms in HTML to allow and validate user input, used CSS w/Parallax to create a landing page that hooks the user, inviting them to enjoy their experience while navigating the site. Used JavaScript to enable seamless functionality when a user searches for coffees, or adds a drink to the existing list

[WeatherMap Project](#)

WeatherMap is a solo project that combined API OpenWeather and API Mapbox to create a WeatherMap using JavaScript to enable manipulation of icons to view weather wherever user is interested by simply dragging their icon, or by searching via zip code in an input form. Used Postman to test the APIs while building code. Used CSS to style the landing page to encourage the user to use the app

Military Experience

Joint Reserve Training Center - Bell, Ca

Command Physical Training Representative / July 2018 - Apr 2021
