U.S. Army

NREMT-B Certification
2006-2010
Secret Clearance (Inactive) for
HIPAA Compliance

Full Stack Software Developer and U.S. Army veteran. A former medical team leader, I have a strong attention to detail and a proven track record of working in collaboration with small to large teams. Using my skills learned from diverse environments, I am passionate about creating code that helps people on the front and back end.

Development Projects

Ducks n' Stuff

An E-Commerce website with a focus on user experience, and built-in metrics tracking for sellers to improve their sales. Back-end built using Java, Spring, JPA, Maven. Front-end built with Node, NPM, React, JSX, JavaScript, HTML, CSS, and Bootstrap.

MoviesDB

A single page web application movie project that allows users to add, edit, and review movies. Back-end built using Java, Maven, Spring, JPA, and MySQL. Front-end built with HTML, CSS, and JavaScript.

Weather Map

A real time weather web application with current weather and 5 day forecast for anywhere in the world. Users are able to look up weather by interacting with the map directly, or via search bar. Created by integrating the OpenWeather API and MapBox API using HTML, CSS, and JavaScript.
