Codeup

Certification of Completion

Aug 2022 - Jan 2023

A fully-immersive, project-based, and intensive 20-week Full-Stack Java Career Accelerator that provides students with 670 hours of expert instruction in software development

Air Force veteran with experience in information operations, resource allocation, team-management, and problem solving. I have always been fascinated with the development of interactive media, and desire to use the experience gained from a fulfilling career as a developer to make products that uplift and inspire people. If your company needs someone who takes pride in a shared vision, and provides the best products/services, you have found your developer.

Development Projects

[Travel-Bros](#) | [Travel-Bros Github](#)

Travel-Bros allows users to plan trips with cost in mind. Users can enter a starting and ending location, a max price they're willing to spend on the trip, and users can save multiple projected miscellaneous expenses for each trip. Travel-Bros uses google maps api to generate a route, and is made with a combination of the following: Java, Spring, Thymeleaf, Javascript, JQuery, and Bootstrap 5.

[Your Weather](#)

Your weather allows users to obtain forecast information based on a selected city by dragging a pin to a location of their choice, or by entering a city name, or address into the search bar. Your Weather's front end is made with a combination of Javascript, jQuery, and Bootstrap 5

[The Movie Reel](#)

The Movie Reel allows a user to maintain a collection of their favorite movies. Users can edit movie titles, plot descriptions, cast information and more. The Movie Reel's front-end is made with a combination of Javascript, jQuery, and Bootstrap 5

Professional Experience

US Air Force - St Joseph, MO

Tactics Threat Analyst / Mar 2020 - May 2022

- Provided frequent presentations to leadership regarding adversary tactical updates, ensuring most up-to-date information is disseminated to war planners
- Appointed as a team lead in annual conferences with intelligence professionals and officers to propose initial solutions to Air Mobility Command problem sets
- Supported National Guard Bureau, Air Force Reserve, and Active Duty Air Force with intelligence updates

US Air Force - Multiple Locations

Signals Intelligence Analyst / May 2016 - Mar 2020

- Responded to dynamic and time-sensitive collection opportunities that directly impacted strategic US defense operations
- Led a 7-man, 24/7 Operations team that Provided sole-source analysis for DOD's space surveillance networks, updating US defense indications and warnings
- Collaborated with DOD agencies and allied partners, strengthening the US and coalition's defense picture
- Planned and executed fundraisers to meet and exceed financial goals. Used said funds to plan and execute unit morale functions
