Codeup

Certification of Completion

Aug 2022 - Jan 2023

A fully-immersive, project-based, and intensive 20-week Full-Stack Java Career Accelerator that provides students with 670 hours of expert instruction in software development

Highly motivated software developer with over 6 years of experience in the Armed Forces, including expertise in inter-agency coordination, customer service, and problem-solving. Passionate about creating applications that help people improve their lives and solve real-world problems. Seeking to leverage my drive and skills to develop innovative software solutions.

DEVELOPMENT PROJECTS

House Market Place

(<https://github.com/Exabiir/REACT-House-Marketplace-Project>)

Users can use their phones to seek for a home to rent or sell through the House Market Place project. The user can sign up for an account and create a listing for selling or renting out a home. When a user produces a listing, they have the option to create, update, or delete it. The user may also email a user from whom they wish to rent or purchase a home. This mobile app was created using React.js and Firebase.

Ticket Support (<https://github.com/Exabiir/REACT-MERN-Stack>)

With the Ticket Support project, users can submit a support ticket for their electronic devices. The user can create, update, and close out previously made tickets. The user can also add notes to the ticket in order to engage with the help desk team. This support ticket application was built with Mango Atlas, Express.js, React.js, Redux Toolkit and Node.js.

Fitness Gym Project

(<https://github.com/Exabiir/Fitness-TypeScript-React-Project>)

Created a dynamic web application for Evogym utilizing TypeScript and React.js. The application provides an interactive platform for users to discover the features and benefits of Evogym, including class schedules, and the ability to easily contact the gym.

PROFESSIONAL EXPERIENCE

United States Navy - San Diego , CA

Administration Clerk / Mar 2018 - Apr 2022

- Successfully overhauled more than 100 ship instructions and manuals, resulting in a 100% success rate for the administration inspection of all 17 divisions on the ship.
- Supervised the coordination and organization of evaluations for 80 junior sailors on the ship, meeting all deadlines for submission.
- Exceeded expectations during a COVID-19 deployment by leading, hosting, and organizing over 12 events to boost morale for 360 personnel.
- As Damage Control Petty Officer, I conducted testing on 144 fire hoses on the ship, resulting in 100% damage control readiness for fire control.
- Managed and sent over 40 classified materials as the ship's mailing Petty Officer.
- Provided leadership and guidance to two junior sailors, who were subsequently promoted.
