[LinkedIn/Riley King](#)

[GitHub/Riley King](#)

Former United States Air Force Veteran with experience in the communication industry. Eager to learn more about software and software development, I took the initiative to learn how to code and with that, use what I've learned to expand my knowledge to create the many applications we use in our daily lives.

## Technical Skills

---

HTML - CSS - Bootstrap - JavaScript - jQuery - Java SE - Java EE (Servlets, JSP) - Spring - MySQL - Object-Oriented Programming - Test-Driven Development - Version Control with Git - Paired Programming

## Development Projects

---

### [Coffee Project](#)

Allow users to create and search coffees based on roast and name. I created the search function and the part of code that allowed user created coffees to display on the page

**Environment:** Javascript, HTML, CSS, Bootstrap

### [JunkLister](#)

JunkLister is a website that allows users to post and sell items. I created a search bar to search through listed ads and assisted with creating the user login feature

**Environment:** Spring, HTML, CSS, Java

### [Movie Project](#)

A website made to list movies and movie ratings. Users can input their own movies and ratings as well. I created the function that lists all the movies in the pages as well as the functions to add and delete movies

**Environment:** Javascript, HTML, CSS

## Military Experience

---

**Macdill AFB** - Tampa, FL
