RECENT PROJECTS

Live Music Is My Life

Web application that allows users to view and select live music shows that are happening in the area using several api's. My contributions include:

- Utilized Materialize Framework
- Created custom JS for the front end
- Overall design and layout of the project

Star Finder

Web app allowing users to post and find ads of items and services for sale (Star Wars themed). Contributions include:

- All custom CSS for the overall design
- Custom JS within the application
- In charge of overall design of the project

WORK EXPERIENCE

Aramark Child Nutrition April 2015 – April 2016

(Regional Executive Chef)

Improved Nutritional Standards for West Texas Region Schools as well as improving marketing within the company to be the top marketed school within North America.

Westin Hotel August 2014 – April 2015

(Sous Chef)

Trained by the Executive Chef to cost out and provide unique dining experiences for guests while maintaining the appropriate budget.

United States Army September 2007 – May 2014

(Helicopter Flight Engineer)

Ensured the fly ability and maintenance of 13 military aircraft as well as overseeing a staff of 18 people.
