PROJECTS

Kidsync.life/

Spring MVC web app that allows teachers the ability to update student information and enables parents to view their child's progress.

Ad Lister/

Spring MVC web app Craigslist clone that allows users to register an account, create, edit, and delete their own ads, and view all ads.

WEB SCRAPER/

A cron driven Python script that collects data from a web page and saves it to a database.

Military Experience

United States Air Force

C2 Battle Management Operator
Mar 2009 - Mar 2017

Training Manager

- Created custom training plans for all students.
- Evaluated all certified surveillance personnel annually.
- Documented all training with ACC Form 206 and all evaluations with AF Form 8. Briefed unit commander of results.
- 100% graduation rate.

Electronic Protection Technician

- Ran mission briefings, assisted in the development of TTP's to improve detection and prevention of electronic interference and attack.
- Collected, documented and debriefed lessons learned for unit commander and squadron leadership.

Surveillance Technician

- Built and manipulated airspace requests on the tactical display Framework software.
- Coordinated transit of 100+ aircraft simultaneously in highly congested airspace spanning three countries.

Current Operations Scheduler

- Planned, produced and maintained the schedule of more than 100 personnel.
- Developed and executed briefings. Drafted training reports for senior officials.
