📄 github.com/JRihn32

A detail-oriented problem solver that makes use of extensive technical background to anticipate future problems and address them accordingly. Having previously worked on teams of highly skilled colleagues, I've found I thrive in collaborative environments and enjoy contributing to large projects that solve complex problems.

TECHNICAL SKILLS

SAFe Agile - HTML5 - CSS - Javascript - Bootstrap - Angular - Ionic - JIRA - Java - Spring - Thymeleaf - JQuery - Android Development - iOS Development - Visual Studio Code - IntelliJ - Eclipse - Visual Basic - Drupal - Adobe InDesign

DEVELOPMENT PROJECTS

EODIMS

October 2018 - Present

Application allowing EOD Technicians the ability to report, track and record their training for dealing with different types of ordnances. Through SAFe Agile methodologies and using test-driven development, I participated in the full software development life cycle (SDLC) for the project specifically focusing on the mobile application.

Progression - Java Spring Boot Website

September 2018

Task manager website. Used Spring MVC and Thymeleaf to populate and retrieve data from a database to create a fully functional website.

Ad Lister Application - Full Stack Application

August 2018

Used Spring MVC to create a simple functional website where users can create advertisements.

Contacts Manager - Java Application

July 2018

Worked with a partner to create an application allowing the creation and management of a list of contacts.

Movies Application - Javascript Application

June 2018

Created an application that allows users to add, edit, and rate movies.

PROFESSIONAL EXPERIENCE

Appdiction Studio

October 2018 - Present

Software Developer

Developed an application to be used by EOD technicians for training, reporting and mission deployment. While using SAFe Agile methodologies, I work as part of a team to build the mobile application to meet the requirements of the customer.

Southwest Research Institute

Oct. 2009 - Present

Sr. Technician

Responsible for operation, maintenance, and integration of automated equipment used for assembly of space rated avionics hardware. Work with project management to deliver products within schedule and budget. Provide training and guidance for other technicians on all equipment and processes.

EDUCATION

Codeup

May 2018 - Oct. 2018

Fully-immersive, project-based, and intensive 18 week full stack Java career accelerator that provides students with 600+ hours of expert instruction in software development.

University of the Incarnate Word

Sept. 2016 - Jan. 2018

Major: Business Administration

Minor: Information Systems

Hallmark Institute of Technology

Jan. 2006 - Nov. 2006

A.A.S. Electronic Engineering Technology

GPA: 4.0

President's List Award for perfect attendance
