

CARSON BELEW

Software Developer

My experience as an ardent personal trainer with my ambition to ensure work quality, speaks to my approach to solving problems: rigorous planning, methodical approach, and vigorously test end results. As a driven individual, in conjunction with my commitment to strong work ethic to find solutions to problems, pushes me to have meaningful contribution in the tech industry.

EXPERIENCE

LA Fitness **2017-2018** PERSONAL TRAINING SALES MANAGER

Sales manager included the ability to discuss, provide and close on a personal trainer for a member using a presentation and workouts.

Ultra Body Fitness **2017-2017** PERSONAL TRAINER

As a Personal Trainer members relied on me to provide a workout every day customized to their abilities and limitations.

Fitness Management Group 2016-2017 FITNESS MANAGER

As Fitness Manager my duties included managing a team of personal trainers, hiring and/or firing trainers, training members and keeping up morale.

DEVELOPMENT PROJECTS

Tixie MTS **07/2019**

This is my capstone project putting together all that I learned through Codeup. This project is to create a modern ticketing system that can be adapted to fit the needs of many maintenance team. My team and I worked together to plan and execute the project sharing responsibility of all the backend and front end tasks.

Adlister **06/2019**

Using HTML, Bootstrap, JQuery and custom CSS I helped build this application to help a user login, log out, create an ad, search ads and edit their profile and created ad.

Coffee Store Website **04/2019**

My role for this project was to provide the site with an 'add coffee' area for the user, and be able to dynamically add that coffee to a list already made.

ACADEMICS

Codeup **07/2019**

Certificate of completion

Texas State University **2016**

Over a hundred hours in Exercise and Sports Science that included extensive hours of shadowing professionals, practicing solutions to a client's problems and countless research on new trends and technology.
