Java EE (Servlets, JSP

DEVELOPMENT PROJECTS

Coder-Collective

October 2019

Coding Collective is a site for people to meet, interact, learn the basics of coding, and discover popular resources that others use. Coding Collective is a community-driven site, with the community vetting and ensuring the quality of recommendations and materials produced.

PROFESSIONAL EXPERIENCE

P.F Changs April 2018–Nov 2018 Prep

Soul purpose of my job was to make sure my team can execute the list of assignments that are delivered and to be completed at a given time and properly organized.

These responsibilities are relevant to the job im looking for such as teamwork and fastpast adaptation.

Adlister Application

September 2019

This project allows the user to register and login. The user is then able to create an add and look for an add. The user and viewer also have the option to view all the adds. Once the user is finished they will have the choice to log out.

Movie Application

July 2019

Allows the user to search for a movie using an API that will allow you to select any movie so you can store it to your favorite list. The user also has the option to edit & delete the movie. I worked on the front-end and the language I used was JavaScript .

ACADEMIC BACKGROUND

Codeup

October 2019

Certificate of Completion

A fully-immersive, project-based, and intensive 18 week full stack Java career accelerator that provides students with 600+ hours of expert instruction in software development.

Coffee Project

June 2019

This project was created to help the user to search the list of coffee, style and create an order of their own coffee. On this project my partner did a lot of the JavaScript and i helped by creating a wire frame and designing the entire application.
