

ROGER MAYER

SOFTWARE DEVELOPER

I am a creative, problem solving developer with an aspiration to be a lifelong learner of new technologies. Through determination and consistency, I have excelled and rapidly received promotions at every job I have ever had. Now, I push myself daily in the passion of full stack web development. I am dedicated to building and optimizing the performance of user-centric, high-impact websites with clean, sustainable code.

TECHNICAL SKILLS

HTML CSS Bootstrap Javascript jQuery Java SE Java EE Spring Boot with Thymeleaf MySQL Paired Programing VCS with Git Agile Framework Jasmine TDD Python Javascript React

Exposure to: Adobe Photoshop

DEVELOPMENT PROJECTS

Openhelp (myopenhelp.com)

OpenHelp connects users to organizations for volunteer opportunities. Designed with agile framework, this full stack application utilizes Spring MVC, as well as APIs from TalkJs, Mapbox, and JavaMailSender. I focused on site mapping with views and controllers, UI/UX, and CRUD for users and events. I also created the overall concept and helped with database design.

Radlister

Full-stack web application created with Java with MVC that utilizes MySQL for database storage. Users can login, create, edit, and delete posts. In addition to executing the UI/UX theme and consistency, I implemented a search function that allows users to search by user, post, and category.

Weather or Not

Users can get five day forecast via searchbox or with drag and drop marker. This is achieved by an AJAX request to both Mapbox and DarkSky APIs which allows a smooth data refresh without completely reloading page. For design, I was able to implement a clean, minimalist 'dark-mode' theme.

PROFESSIONAL EXPERIENCE

Theory Coffee
Senior Barista

Aug 2018 - Current

Part of small, elite team in a dynamic, fast paced environment with no room for error. The shop was recently voted "Best of the City" by SA Magazine. This job was an exciting pursuit in mastering the art of multitasking to deliver both quantity and amazing quality.

Merit Coffee
Manager | Store Trainer

Aug 2016 - Sep 2018

Responsible for creating high level standards and employee development in a dynamic workspace. Increased sales and efficiency with improved protocols. Authored an updated, standardized training manual. Ensured availability of merchandise and services by approving contracts and maintaining inventories. I used my judgement to hire new team members and how to effectively help them grow with our company vision.

Barbaro
Manager

June 2014 - Sep 2016

Led the opening of a new, popular restaurant. In addition to front of house responsibilities, I managed all controllable costs to keep operations profitable. Assisted bookkeeper with PNL's and forecasted future sales and costs. Managed multiple divisions of the business and catered my leadership vision accordingly.

ACADEMIC HISTORY

Codeup
Full Stack Web Development

Feb 2020

Codeup is a fully-immersive, project-based, and intensive 20 week full stack Java career accelerator that provides students with 670+ hours of expert instruction in software development.

San Antonio College
Associates Business Administration

Dec 2014

Focused on economics, accounting, marketing, and logistics. I simultaneously attended school full time while also managing a restaurant.
