## SUMMARY

As a Software Developer, I am ambitious, tenacious and embrace learning new technologies. I have high attention to detail, work collaboratively and cross-functionally. I have a hands-on innovation approach, to solving complex problems coupled with strong leadership qualities that aids in completing technical projects. It is my desire to join a team that firmly believes in growth, culture, and integrity.

## TECHNICAL SKILLS

- HTML | CSS | jQuery | JavaScript | Bootstrap | React
- Java | Test Driven Development (TDD) | Unit Testing
- MySQL | Spring | Thymeleaf | RestAPI
- Object Oriented Programming | Model View Controller (MVC)
- Java EE | Java SE | Application Design
- Paired Programming | Github | Debug | End-To-End
- Frameworks with Lightning Experience | Software Development & Engineering

## EXPOSURE TO

- Salesforce Admin Beginner | Agile Methodology | Micro-services
- GoLang | Python | Continuous Integration(CI)/Continuous Delivery(CD)

## EDUCATION

### Codeup

Certificate of Completion

May 2020 - Nov 2020

A fully-immersive, project-based, and intensive 22-week full-stack Java career accelerator that provides students with 670+ hours of expert instruction in computer software engineering.

## LANGUAGES SPOKEN

- English
- Spanish

## DEVELOPMENT PROJECTS

### Capstone Project

Operation Co-Op is a full stack social responsive innovative application for gamers. With emerging technologies, this application was built using front-end / back-end technologies and utilized IGDB API.

My responsibilities included but not limited to unit testing, API integration, MySQL DB relationships, Java, Spring, Front-end presentation, debugging and collaborated with a team of three other cohort members.

### Adlister Project

Project focused on Full Stack Developer mindset by creating a webpage using computer software that utilizes MySQL and Java frameworks. Project was to replicate an Ad webpage, where users can create their own profiles, securely log in via Spring Security, view, create and edit their ad listings.

## **Movie Project**

Paired Programming project that involved Node Package Management (NPM) and front-end technologies to generate a webpage that allows a user to add, edit, and remove movies from the movie list.

## **MILITARY EXPERIENCE**

United States Marine Corps

Sergeant Tactical Air Operations Module Technician MOS 5979

Jun 2008 - Jun 2012

- Supervised installation, alignment, inspection, testing, maintenance and troubleshoot of electronic assemblies and subassemblies, fiber optic cables and system software of all tactical air operations and air defense systems.
- Performed periodic inspections and preventative maintenance and troubleshooting
- Possessed Security Clearance for handling Cryptographic Data
- Maintained necessary records of maintenance and compile data for reports.

## **WORK EXPERIENCE**

### **Merit Roasting Coffee Company, San Antonio, TX**

Maintenance Technician

Mar 2020 - Current
