Professional Summary

A creative and curious problem solver with foundational pillars in team-centricity and detail orientation. I pride myself on an ever-present ideology of constant learning and relentlessness, and I always rise stronger upon falter. I invariably strive for successful outputs and growth, and I tackle challenges with confident tenacity.

Technical Skills

HTML	jQuery
CSS	Object Oriented
JavaScript	Programming
Node.js	Thymeleaf
React.js	Java SE
Bootstrap	Spring Boot Framework
VCS with Git	MySQL
Paired Programming	Java EE (Servlets, JSP)
Test-Driven Development	

Education

Codeup

Certificate of Completion 2020
A fully-immersive, project-based, and intensive 20-week full-stack Java career accelerator that provides students with 670+ hours of expert instruction in software development.

St. Mary's University

Bachelors of Humanity and Sociology. 2018
Sociology at St. Mary's is designed to foster the goals of a 21st century understanding in a systematic, intellectual, critical, and ethical manner.

Military Experience

Missiles and Space System Maintenance

United States Air Force Jan 2012 - Jun 2014
I was tasked with quality control towards various missile defense products ensuring the safety, security, and longevity of the products and team. I also organized strong team work environments in order to produce greater productivity.

Development Projects

Weather Map

The Weather Map application is a project that uses two REST APIs in conjunction with one another to generate weather cards, while simultaneously updating the map to search for a location's weather. JQuery and Bootstrap libraries were used for this project.

TryIt Diet

TryIt Diet is a platform to promote health by making it easier to learn more about different diets to not only battle obesity but covid-19. This full-scale web application allows users to share tailored healthy recipes with each other, and inspire others to stay healthy. This application was built using css, javascript, java spring boot, and filestack api. My contribution to this project was the nearly AAA Web Content Accessibility Guidelines design, along with the UI/UX components.

AdLister

The AdLister application is a back end focused imitation of craigslist using Java, MySQL, servlets, and Tomcat to deploy the project. Any user with a login has CRUD functionality for themselves in regard to their profile and Ads..

Professional Experience

Delivery Associate

Black Eagle Express, Amazon Dec 2019 - Nov 2020
My main duty was to deliver heavy parcel products using inventory management software for accuracy, and simultaneously use strong customer service skills to assure customer's satisfaction with their product and service.

Residential Treatment Officer Sep 2016 - Mar 2019
Bexar County Juvenile Probation Department

As an Bexar County Officer my primary duties were to prepare and maintain case folders for each assigned inmate or offender, and develop rehabilitation programs for assigned offenders or inmates by establishing rules of conduct, goals, and objectives.
