University Health Systems -- San Antonio, Texas

Medical Laboratory Assistant | 2015-2018

- Performed routine laboratory duties utilizing established protocol and procedures under supervision.
- Sorted, labeled, and recorded patient specimens and maintained an appropriate inventory of supplies.
- Set up specimens, materials, and equipment in preparation to perform the test.

/ SUMMARY

I am a developer with a drive to create inventive applications.

My former profession being in a medical laboratory setting allowed me to cultivate adept troubleshooting skills along with communication skills via interactions with lab staff, doctors, nurses, and patients.

I envision myself being inserted into a team that provides support for both personal and professional growth.

In turn, I would dedicate myself to being an asset for the primary goal of that team.

/ TECHNICAL SKILLS

- HTML
- CSS
- Bootstrap Framework
- JavaScript
- jQuery
- Java EE
- MySQL
- Spring-Boot
- Pair Programming
- Test Driven Development
- Object Oriented Programming
- VCS with Git
- Thymeleaf
- Spring Boot Framework

/ DEVELOPMENT PROJECTS

Baking Buddy

Group programming Project

- JavaScript application that allows users to upload, search, rate, and delete a personal list of movies.
- The focus was to have user inputs triggering JavaScript events and having said events send JSON requests.

My Movies List

Pair programming Project

- A full-stack application that provides a focused platform for the at-home baker to go beyond the neighborhood.
- The focus was to create a production-ready application for live usage after deployment.

Adlister

Group programming Project

- Java application that allowed users to create a profile, create, edit, and delete ads.
- The focus was to enable front-end and back-end connectivity via servlets and controllers.

/ EDUCATION

Codeup

Certificate of Completion | 2021

- A fully-immersive, project-based, and intensive 22-week full-stack Java career accelerator that
- provides students with 670+ hours of expert instruction in software development.
