Professional software developer and former Air Force Intelligence Analyst with diverse experience that fostered strong analytical, public speaking and interpersonal skills. Leadership roles across three continents have developed a passion for developing innovative, secure and accessible software to connect and build relationships with people across the globe.

Technical Skills

HTML - CSS - Bootstrap - JavaScript - jQuery - Java SE - Java EE (Servlets, JSP) - Spring - MySQL - Thymeleaf - Object-Oriented Programming - Test-Driven Development - Version Control with Git - Paired Programming

Development Projects

Cookbook: <https://github.com/cookbook-majk/cookbook>

Cookbook is a recipe-focused full-stack web application that allows users to create, browse and share recipes with friends. The app has a social media aspect, encouraging users to interact with one another by liking, reviewing, and sharing recipes. Users may follow one another and share their activity to create a sense of community. Cookbook utilizes Spoonacular, a recipe & cooking API which provides access to a database of recipes, organized by category and searchable by tags. The application is built for mobile phones and tablets, with a focus on ease-of-use and simplicity, in order to provide a smooth user experience.

Environment: Java / MySQL / HTML / JavaScript / CSS / JQuery / Bootstrap / Spring Boot / Spoonacular API

gottaWatch: <https://github.com/joshua-stephen-mullins/gottaWatch>

gottaWatch is a social media single page application that allows users to create curated lists of movies and tv-shows to share with their friends. Utilizing a RESTful API, users can browse media content by trending, popular, all time rated, or by name and then can follow one another and comment/like others lists.

Environment: HTML / JavaScript / CSS / JQuery / Bootstrap

Play DnD: <https://github.com/joshua-stephen-mullins/dnd-project>

Play DnD is a character building tool that enables users to quickly create a character sheet in order to get into the game faster. It utilizes a RESTful API in order to generate character options and guide users through the creation process.

Environment: HTML / JavaScript / CSS / JQuery / Bootstrap

Military Experience

United States Air Force / Jun 2012 - Feb 2022

Kaiserslautern, Germany

Senior Intelligence Duty Officer Technician / Mar 2019 – Feb 2022

- Managed the execution of intelligence collection flights across both the European and African theaters
- Developed training program for 10 emerging analytic tools and led instruction during 14 training events

Team Lead, European Analysis Team

- Prepared daily operational level intelligence briefings for Senior Air Force leaders
- Oversaw creation and updates of threat to air operations products for the European theater of operations; ensured 32 flying units were up to date on emerging threats

Constanta, Romania

Deputy Director, United States Liaison Team / January 2020 – March 2020

- Led six-man team that represented the United States military during daily engagements with foreign senior military officers and government officials
- Coordinated partner nation intelligence sharing and dissemination of daily joint-analytic products, utilized by national-level intelligence consumers
- Increased coordination with United States embassy personnel; planned defense attaché and contractors sensitive site visits

Pyeongtaek, South Korea

Shift Supervisor, Fusion Analysis / Feb 2018 – Feb 2019

- Optimized real-time high-altitude intelligence collection; guided imagery mission supervisors in refining standing collection requirements
- Delivered indications and warning for national level problem sets; conducted time-dominant intelligence fusion for United States and Republic of Korea forces

Mary Esther, Florida

Team Lead, Multi-Source Analysis / Feb 2015 – Jan 2018

- Led eight-member multi-source analyst team; supervised production of daily pre-mission and intelligence briefings for 70+ analysts supporting deployed forces worldwide
- Security manager for 465 members; processed classified account requests, conducted special access program read-ins and managed sensitive compartmented information facility access

Intelligence Analyst – Multi-Source / Feb 2013 - Feb 2015

- Led daily five member teams in full-motion video exploitation; provided direct support to deployed forces in combat situations
- Lead initial mission qualification instructor for over 30 analysts, and ensured a 100% qualification rate
- Conducted extensive all-source research on high-value targets of interest in support of full motion video analysts and deployed forces

Education

Codeup

Certification of Completion

Oct 2022 - Mar 2023

A fully-immersive, project-based, and intensive 20-week Full-Stack Java Career Accelerator that provides students with 670 hours of expert instruction in software development

Community College of the Air Force

Jun 2012 - Aug 2016

Associates in Applied Science in Intelligence Studies and Technology
