Technical Skills

HTML, CSS, Bootstrap,
JavaScript, jQuery,
Java SE, Java EE (Servlets, JSP),
Spring, Thymeleaf, MySQL,
Object-Oriented Programming,
Test-Driven Development, Version
Control with Git, Paired
Programming

Education

Codeup

Certification of Completion

Oct 2022 - Mar 2023

A fully-immersive, project-based,
and intensive 20-week Full-Stack
Java Career Accelerator that
provides students with 670 hours
of expert instruction in software
development

Software developer eager to expand my skills and knowledge in this field. Ready to take on new challenges and complex problems with enthusiasm and creativity. Determined to succeed and willing to go the extra mile with any task given.

Development Projects

Cookbook:

Cookbook is a recipe-focused full-stack web application that allows users to create, browse and share recipes with friends. The app has a social media aspect, encouraging users to interact with one another by liking, reviewing, and sharing recipes. Users may follow one another and share their activity to create a sense of community. Cookbook utilizes Spoonacular, a recipe & cooking API which provides access to a database of recipes, organized by category and searchable by tags. The application is built for mobile phones and tablets, with a focus on ease-of-use and simplicity, in order to provide a smooth user experience.

Environment: Java, MySQL, HTML, JavaScript, CSS, JQuery, Bootstrap, Spring Boot, Spoonacular API

Weather Map Project:

WeatherMap is an application using APIs, letting the user pinpoint a location and find weather updates.

Environment: HTML, CSS and JavaScript.

Coffee Project:

Coffee Project is an application that gives the user a coffee menu, allows them to choose their roast level, and gives them the ability to create their own coffee.

Environment: JavaScript, HTML, and CSS.

Professional Experience

Doordash - Dallas, Texas

Delivery Driver | Mar 2020 - Present

- Picking up and delivering food in a timely manner, while maintaining food quality and providing courteous service to both restaurant employees and customers.
- Managed my own schedule and took necessary sanitization precautions for myself and my vehicle when dealing with the food and individuals.

Talus Payments - Dallas, Texas

Technical Deployment Representative | Apr 2019 - Mar 2020

- Received and completed 35 client technical orders daily with 100% success rate. Inspected each ticket for the amount of terminals needed, as well as the type: Ethernet or phone line, and if a client specific file was included for download. Obtained all necessary equipment to begin terminal transition.
- Provided in-depth technical support for Payment Terminals. Troubleshoot each device and repaired any issues. Cleared all data from devices and uploaded client specific company files.
- Managed all aspects of packaging orders for shipment, ensuring all necessary technical equipment and documentation were included, as well as including correct shipment labels.
