[LinkedIn](#)

[GitHub](#)

Software Developer with previous enterprise level computer networking support experience. Combining a passion for coding and IT solutions to contribute to the development and maintenance of software applications.

TECHNICAL SKILLS

HTML - CSS - Bootstrap - JavaScript - ES6 - jQuery - Ajax - JSON - RESTful API - REST API - Maven - Java SE - Java EE (Servlets, JSP, J2EE) - File I/O - MVC - Spring Boot - Hibernate - MySQL - Thymeleaf - Object-Oriented Programming (OOP) - Test-Driven Development (TDD) - Version Control with Git - Paired Programming - Agile Methodologies - Debugging - AWS Deployment - Apache TomCat - Unit Testing (JUnit)

Exposure to: C#

SOFT SKILLS

Collaborative - Peer Review - Innovative - Strong Communication Skills - Teamwork - Builds Relationships - Initiative - Analytical - Flexibility - Reliable - Integrity - Work Independently - Visualization - Virtualization- Willingness to Learn - Collaborate - Problem Solving Skills - Research Skills - Dedicated - Competitive - Self-motivated - Committed - Team Player - Innovative - Independent - Written and Oral Communication Skills - Culture - Fast Paced

DEVELOPMENT PROJECTS

FitConnect: [Live](#) | [Repository](#)

FitConnect is a social network for fitness enthusiasts where users can create a profile, search for other like minded users, add and chat with friends, and receive awards for in site achievements. Integrated TalkJS API to allow users to message other users on their friends list. Designed a workout tracker feature that allows users to log their daily workout session and display a workout calendar on their profile page. Implemented JavaScript functionality in the search page to provide snappy feedback without reloading the page when submitting the search form.

Skills: Spring Boot, Spring Boot Security, MySQL, Thymeleaf, JavaScript, Java, Bootstrap, HTML, TalkJS API, Google Maps and Places API, FileStack API.

Adlister: [Repository](#)

Adlister is a website that allows users to login, create and edit ads, and search for ads based on keywords or categories. Developed front-end JavaScript form validation and front-end search and filter capabilities. Designed back-end models and database for categorization of ads.

Skills: Java, Java Servlets, JSP, MySQL, JavaScript, jQuery, Bootstrap, HTML, CSS.

WeatherMap: [Repository](#)

WeatherMap is a weather map application that allows users to get a 5-day forecast for a specific location. Developed JavaScript functionality for making calls to OpenWeather and Mapbox API to receive weather information for specific locations on a map. Utilized Bootstrap for styling and added a dynamic dark mode/light mode toggle feature.

Environment: HTML, CSS, JavaScript, Bootstrap, OpenWeather and Mapbox APIs.

PROFESSIONAL EXPERIENCE

Cisco Meraki - San Francisco, CA

Network Support Engineer / Jan 2017 - July 2017

- Closed and resolved over 750 cases involving customer issues with enterprise level network configurations including routers, firewalls, switches, wireless access points and endpoint management software.
- Contributed to fixing bugs in networking equipment firmware by working with the software engineering team and providing detailed bug reports.
- Handled and updated over 500 customer accounts in Salesforce. Provided excellent customer service while handling customer's technical issues.

EDUCATION

Codeup

Certification of Completion

Nov 2022-May 2023

This 5-month coding boot camp teaches full-stack software development through 670 contact hours of hands-on technical training (20% more time than 4-year degree majors require). Students hone skills in modern web technologies, computer science, software engineering, and application architecture while gaining project experience with pair programming, debugging, troubleshooting, agile project management, user stories, feature lists, UI/UX, wireframing, and relational database design.

Rackspace Open Cloud Academy

CCNA, Certificate of Completion

Aug 2016 - Sep 2016

9 week intensive computer networking program focused on developing computer network troubleshooting skills and CCNA certification

University of Texas at San Antonio

Bachelor of Business

Aug 2011 - May 2015

Completed four years of undergrad business studies
